My dear Buxton,

Thank you very much for the confidential document and for the copy of Lord Newton's letter. I will make every use I can of both of them immediately.

I don't know of course what the attitude of the Government is towards Kavala and Monastir, but does it turn on us? Is it not as much a matter for the Balkan States for themselves to decide?

Sincerely yours,

H. Belloc.

My dear Buxton,

Thank you very much. It seems to be the impression among my friends who hear these things that the matter is virtually settled. I hope it is.

Very sincerely yours,
