291

The upper part all black  
 with a glaze of green & brown  
 wing & tail quills an exquisite  
 narrow edge of grey - the  
 throat is dark raven grey  
 growing paler to the breast &  
 it rather abruptly becomes  
 white the belly white & bright  
 on white not very pure the  
 under part of the feathers of  
 the tail are greyish the tip  
 is dark - the tresses are  
 red the hairs over the breast  
 strong - beak & feet black -  
 It has the rufous and frontlet  
 of the *Corvus* - it is half the  
 size of *Corvus basileus* but  
 has the same tail - feet  
 black too - the name is  
 Vallian - or the white  
 bird - the belly alone is  
 The Sanscrit name *Foras*  
*Canjaritan*
