

Preparations **Nearing End** For Carnival

Personnel lists and committees of the McGill Winter Carnival continue to swell and the tempo of preparatory activity increases at a staggering rate as the final touches are put on the second McGill Winter Carnival scheduled for the four days from Februry 16 to 19.

Commenting on the interest shown by and the aid received. from the students, John Dobson, chairman of the carnival said today that he is well pleased and much heartened by the wave of support the carnival is receiving from various organizations on the campus.

T

Records show a total of 483 students doing regular work to whip the carnival into shape. This is exclusive of several hundred other students who contribute their assistance from time to time. The number of Winter Carnival workers is somewhat smaller than last year, it was shown, but this is explained by the difference in locale of the hockey and skating presentations. Last year Molson Stadium was the scene of the hockey, figure skating, and the crowning of the Carnival Queen, and required hundreds of man hours to prepare. This year, these events will be bound into one night's en-tertainment at the Forum which, of course, needs no preparation.

> Another highlight of the parade as the McGill University float; was the McGill University float, sponsored by the T. Eaton Co. Ltd., heralding the McGill Carnival of February 17, 18 and 19—Montreal's next outstanding sports event. The snow-white float, standing about 15 feet high, depicted Mc-Gill's heraldic little hero — the martlet, poised for a ski jump. And under the "red bird" on the 30-foot float were a dozen winter-garben float were dustrating the various students illustrating the carnival events to be seen at the carnival the mile

Snow Statues To Be Feature Of Carnival

John Allan, Chairman of the Mc-Gill Winter Carnival Snow sculpture committee, in an interview with the "Daily" today released the following announcement: "Once again I wish to stress the importance of snow sculpturing for the ultimate success of the Carnival. Now that the snow has come to Montreal again, it is a good opportunity for all organized clubs to get underway with their masterpieces. The Carnival is now less than three weeks away and the judging of the sculptures is taking place a week before this on February 9."

Mr. Allan went on to say that fraternities and sororities have been notified through the mail but that the contest is by no means limited to these organizations. Any club not possessing private property may construct their "statues' on the lower McGill campus.

The sculptures will be judged by unbiased and unprejudiced members of the faculty and the prize to the winner is a cup given for that purpose and won last year by the DKE Fraternity.

Mr. Allan revealed how last year by guests of the Carnival and all Montrealers who saw them.

Saturday night a parade is to be staged by the members of 42 snowshoing clubs in their march from Montreal north to Lafontaine park. Besides providing a colourful spectacle, as 1500 torch-bearing snowshoers and dozens of bands whoop it up through the heart of the city, a number of floats depicting others forms of winter sports will heighten the glamour and gayety of the event.

Outstanding among the displays will be a special float donated by the T. Eaton Co. which will depict the spirit of the McGill Winter Carnival. A martlet on skis will dominate the float with a dozen or more students toboganning, snowshoeing or engaged in a snow-ball battle royal surrounding the base.

Winter Carnival Gossip

AILY "

The Winter Carnival, to be staged from February 16th, is really no-thing new to Montreal -- there are records of such events being held as far back as 1882, when McGill won the hockey championship of a similiar programme staged by the city itself. Last year's carnival was the first big Carnival to be staged since 1914, and this gives promise of becoming a regular annual event on the McGill winter sports calendar.

In the forthcoming Winter Carnival, no detail is being omitted which will contribute to the general satisfaction and entertainment of the spectators at the various events.

Activities on Wednesday night, Feb. 16th, are designed to stimulate the proper outdoor fun and frolic mood. Midst banners blowing, bonfires burning, and bands blaring on Mount Royal, there will be tobgganing and skating on Beaver Lake.

After these activities there will follow a display of crackling bonfires, flaring torches and roaring fireworks. It will be a show never before witnessed in the history of Montreal.

About one thousand people will be able to take advantage of the frozen waters of Beaver Lake. A changing place will be erected, the ice will be flooded with lights from an improved lighting system, and a skating show will be put on by some of the more athletically inclined.

Athletic Night Set For Feb. 17 Features **Many Varied Events** Ski Films Will Be Shown Dancing to Conclude Show

The Athletics Night chorus line will reappear at Athletics Night III, slated for Thursday, February 17th in the Currie Gym as part of Mc-Gill's Winter Carnival, according to Bob Paterson, Chairman of the traditional sports festival.

Precision Group

The precision group, long a feature at Athletics Night, were in evidence at Athletics Night I held last December. At the second such event last month, the girls were given a rest from the ordeal of continuous strenuous practicing and did not appear.

Miss Barbara Birkett, trainer of the group and a Phys. Ed. II student. is now lining up twenty-five beautiful young co-eds who have had previous experience in this field and rehearsing is scheduled to get under way at 12 non today in the Union Ballroom.

Full Support

In an interview with the Daily yesterday, Miss Birkett stressed the importance of full support from all these girls and promised the student body some new and unusual costumes and routines, planned to be fully in keeping with the overall carnival spirit.

Also on the program is a basket ball tilt between McGill's red squad and the impressive Y.M.H.A. aggregation. While this is in progress in the main gym, Milt Orr's boys will display their pugilistic prowess against a thus far unnamed local team in the small gym adjoining.

Squash And All

McGill's squash crew will battle it out on the squash courts with an all star team from one of the Montreal clubs. The BW. and F. gym downstairs will be the scene of the showing of two ski films running as a continuous performance. Movies which are new to Athletics Nights this year, have so far met with an enthusiastic reception and the executive committee has made them a permanent attraction this É year.

After the athletic events, the two gymns upstairs will be cleared and opened out into one large room by a crew of fifty special stewards to make room for dancing which will continue till 1 a.m. to the strains of a well-known local orchestra. Tickets, which will be handled through the Winter Carnival, are scheduled to go on sale next week in all major campus buildings.

The occasion will see members of the Students' Executive Council acting as judges in what in effect will be a beauty contest where the contestants will be assessed on the basis of personality as well as of appearance and photogenic aptitude. Results will reduce the number of candidates for the crown to five. Seventeen days later students on the campus will cast a secret ballot for the election of their favorite among the five candidates. The winner will be officially crowned by Mayor Camillien Houde in a cremony on the night of Friday, Feb. 18, at the Forum. The crowning of the Queen will include a torchlight parade on Mount Royal, bonfires and fire-works, tobogganing, skating on Beaver Lake to music, sleigh rid-ing and dancing, as well as an 'ath-letics night'. This will feature a basketball game between McGill and the Y.M.H.A. Blues, as well as exhibitions of boxing, wrestling, squash and gymnastics. Also in-cluded in this program are preci-sion routines by a McGill co-ed chorus line. Triday, Feb. 18, and the follow-fing 'day, will be holidays for the students in order to enable a greater number to participate in "Ski Day" at St. Sauveur. This will feature slaom and downhill contests be-tween McGill and teams from Can-adian and American universities. Band Needs New Men For Carnival Show

Plans released by the Winter Carnival executive for the Ice Show at the Forum on February 18th indicate that the McGill band will be playing a prominent part. The executive has asked the

band committee to have the band turn out in force for this spectacle, and in view of this has reserved a special block of ceats in the mezzanine of the Forum for members.

In preparation the band is holding two practices, the first of which will be held at 6.15 p.m. on Monday, February 7th, in the Currie Gym.

The success of this endeavor rests on a complete turnout of all present members of the band and others who possess musical ability.

Torch Parade To Park Slide Opens Carniva

by Silvia Rodney

On Wednesday evening, Feb. 16th, the M.O.C. will stageit's grand outing and contribution to the Winter Carnival - a fun-packed night atop Mt. Royal. At 7.15 at the corner of Cedar Ave., and Cote des Neiges, a mammoth bonfire will greet enthusiastic carnivaleers. When all have gathered, between five-hundred and a thousand torches will be lit and a torch-light parade will proceed up the flarelit Serpentine Rd. led by McGill's five finalists for the position of Carnival Queen drawn on a sleigh and surrounded by the Scarlet Key.

The parade will proceed to the Park Slide where the Carnival and an evening of exuberant fun will be officially launched at 8.15 by Principal James, who will cut the ceremonial ribbon. Then for half an hour a brilliant display of fireworks will colour the sky and turn night into day. This promises to be one of the highlights of the evening as the executive has announced that over \$200 are being spent on the fireworks. The McGill Band, which is undergoing complete revision by the S.A.C. and other yet witnessed at McGill, will promises to be better than any also be in attendance to provide music to the skyrockets.

Tobogganing

Unfortunately, recent developments have indicated that the Park Slide will not be operation this year, contrary to all expectations of the Carnival executive, and in the short space of time remaining before the Carnival, it would be impossible "or McGill students themselves to undertake to build the iced runways necessary for tobogganing. However, the tow on the hill will be in operation for any ski enthusiasts who wish to use it at no charge.

Spaced about Beaver Lake and the slide will be eight or ten bonfires with blazing multi-colored flares and torches to provide sufficient light for skating, which will be free to all.

SLEIGH RIDES

At the same time, sleigh rides of some half-hour's duration, with warm bear rugs thrown in, will be conducted from the North side of the Park Slide to the Chalet and thence up around the Cross and back to the slide. Refreshments will be served at the Park Slide clubhouse and dancing will also be provided for the less actively inclined.

ALL EYES ARE ON McGILL'S CHAMP GAL SKIER. And it's not hard to figure why. Rosemary Schutz, 19-year-old second year science co-ed at McGill, is not only easy on the eyes but she's also the local hickory sensation. Tomorrow afternoon she leads off down Mont Baldy in the Laurentian Zone Downhill and Slalom Championships. Last winter she won the downhill and slalom by a clear margin in the McGill Carnival and will be highlight attraction as defending champion in this winter's Carnival, Feb, 18-19.

Torchlight-P. 1

At the festively decorated Chalet overlooking the twinkling lights of Montreal far below, admission will be absolutely free an da checking service will safeguard clothes, skis and skates. Refreshments will be served here as well and while energy and space abound a competent caller will lead square-dancing. However, as the evening progresses, and the Chalet becomes filled with veary skaters and skilers, the tem po will change to slower dancing. In this manner the first gay evening of McGill's Winter Carnival of 1949 will come to a successful close.

Some intangible but psychic bond seems to enable them to skate with perfect harmony, and the two lovely stars of Friday night are no exception.

Members of the Ardmore Skating Club in Philadelphia, both Jane and Nancy, have been skating and participating in competitions from a very early age. Although yet in their teens and still attending Mount Holyoke College, South Hadley, Mass., the twins seem to be fast approaching the apex of their skating career. Coached by Gus Tussi, in 1945 they were runners-up in the National Tour Championships.

In 1944 Jane had been runner-up for the Eastern States Junior Championship. And in 1946 she she was to be particularly successful, earning third place in the U.S National Novice Championships, and culminating this with the Philadelphia Senior laurels.

Nancy in 1944 teamed with Charles W. Brickman to become runner-up in the Eastern Pairs Championships. Also for three successive years, from 1943-1945 she and Brickman were Philadelphia Pairs champions. In addition, Nancy has the added distinction of having skated with a world champion-a couple of years ago she entered the U.S. National Championships with Dick Button, 1948 Olympic Champion.

The Lemmon twins are one of the major attractions presented to us by our 1949 McGill Winter Carnival. They are coming so that we may have the opportunity to see international talent at its best.

Only details remain as to the completion of preparations for the mammoth winter holiday. On the McGill campus, nominations for Carnival Queen have been handed in and the S. E. C. has chosen the five most beautiful girls from a group of 27, upon which the student bodies of McGill proper and Dawson will vote in the Democratic elections of St. Valentine's day, February 14th. Fraternities, sororities and other organized clubs have started on their snow-sculpturing efforts which last year were gratly admired and served as "spirit boosters" for the Carnival.

Tickets go on sale on Thursday, February 10th.

Carnival News

The McGill Winter Carnival, highlight of the athletic and social season, is but two weeks off. Vast plans have been underway to make the four-day festival an even bigger affair than last year.

Held this year from Wednesday, February 16th through Saturday February 19th, the Carnival starts off with a "Carnival Night" held on Mt. Royal on Wednesday avening. Bonfires, torches, flares and a vast display of fireworks will highlight out-door sports which the Mountain's facilities provide-skating to music on beaver lake, tobogganing, sleigh riding and dancing.

Thursday evening features Athletics Night 3, the main attraction being a basketball game between McGill and the Y. M. H. A. Blues for the coveted possession of the Dodds Trophy. In addition, squash, boxing, wrestling and gymnastic displays have been arranged. Last, but by no means least, the Athletic Night Chorus Line will be on deck to display their fine, well-formed limbs etc.

Friday is ski-day up North, and a mass student exodus is expected to journey to St. Sauveur via special train to enjoy a day's outing and watch the slalom and downhill competitions. Trains will rush guests back in time for the feature attraction of this year's edition of the Carnival, Forum Night, where McGill and Toronto Varsity will engage in a league fixture, individual skating stars will perform, and McGill's "Carnival Cadettes", a co-ed skating chorus line, will put on a fine display of skating magic and precision routines. Then comes what everyone has been waiting for, the crowning of McGill's Carnival Queen by Mayor Houde. The Queen will be seated on a moving float designed especially for the occasion and will be surrounded by her four attendants.

On Saturday morning the cross country competition will take place at Shawbridge and in the afternoon, colleges will compete at the Côte (Continued on page 4)

The snow sculptures which have dotted the campus and its immediate environs the past few days as a prelude to McGills 1949 edition of the Winter Carnival were judged yesterday afternoon. Needless to say, the judging was an extremely arduous task, since there were so many works of genuine artistic merit from which to make the final decision. The sculptures created such an interest this year that pictures of several of the snow masterpieces appeared in some of the Montreal papers.

The judges announced the following winners to the Daily last night: First Prize went to the Delta Upsilon Fraternity for a skier in a crouched position;

Honourable Mention was awarded to the following groups: (1) Royal Victoria College for a young man with a wolfs head, bottle in pocket, staring at his feminine acquaintances in the dormitory, (2) Delta Sigma Fraternity for an arctic polar bear, (3) Delta Gamma Fraternity for the beautious mermaid facing the Redpath Library.

The prize to the winner is a standig trophy, given by the Carnival nd to be kept until next year arnival.

have dubbed "Forum Fare." The feature of the evening will be the announcement and coronation of the Carnival Queen; her identity, up to that moment, having been a secret. Billed as dessert are the Lem-mon sisters, Nancy and Jane-teen-age figure skaters from the Ardmore Skating Club in Philadelphia. Personally recom-mended by Barbara Ann Scott, this pair have been skating since they could stand. Nancy was Olympic champion Dick Button's partner some years ago in the U.S. Nationals. Jane was run-ner up in the national junior finals.

from nine colleges. Race Course Icy The steel edges couldn't grip the icy terrain, once the competitors got off the track. It was really the toughest sort of running which could not be prevented consider-ing the prevalent snow covers. May of the contestants found themselves sliding for distances as they went out of the route. This was particularly true in the few uphill climbs where sheer courage, inexhaustible stamina and a fine was job were required to make the where it counted the most. Through the woodlands the snow was not too bad for the breakable for a running typical of "Nord-marka" as the Norwegian Per Klippgen of Alleghany College, who was fourteenth, said. The "bush-whacking" was the most interest-in the direction of Lac Marois. Considering the tough conditions and the fact that all finished, ex-got Montreal's Boyer, who lost the course, and Laval's Carbonneau, who broke the harness of his bind-ing at the three-mile mark and had of the college lads, who have had little actual training in the snows of the dine physical condition of he college lads, who have had little actual training in the snows and the fact for a runners as bunklee, winner of many chem

0:54:21, a two minute and six and eight-tenth second margin over Ralphie, who has beaten him fre-quently in the past. From the run-ner-up to the eight-placed Ray Mulvihill of St. Lawrence, there was a little more than two minutes difference, a clear indication of the merry battle among the leaders. Without much time to waste and a quick motorcade thirty-five miles to Montreal, the skiers found a speedy forty-meter incline, lo-cated on the back of Westmount and towered over by the shrine of Brother Andre, awaiting them for the jump. A slight rise midway in the flat made it imperative for the jumpers to "gelandesprung" as they worked into the finishing "Christie." Spills Are Infrequent

Yet with the fast and seemingly zardous conditions, there were Yet with the fast and seemingly hazardous conditions, there were less than one-half dozen spills out of seventy-six jumps taken, again reflecting on the high caliber of skiing in college ranks today. The officials were still using slide rules and begrither to have the second officials were still using slide rules and logarithm tables to compute the winners of this event. The dis-tances of the flights made by the top-notch skiers shows it is going to be close deciding the ultimate winner.

However, the fact remains that while New Hampshire was shead of Dartmouth by less than a full point going into the jump, the In-dians' Arneberg, Stewart and Bull, all combination skiers, had outon skiers, had Wildcats' Du

Victory on Cote des Neiges Settles McGill Winter Carnival Meet

By LARRY O'BRIEN

Students from Dartmouth College captured the Inter-national Intercollegiate ski meet of McGill's Winter Carnival today by outclassing a field of 10 Canadian and American colleges in combined team points climaxed by this afternoon's sweep of the Cote des Neiges jumping event.

Led by team captain Wilbur Bull who annexed the jump-ing title with 200.7 points, the Hanover NH team clinched the meet with sensational performances in both events today on the heels of winning yesterday's downhill-slalom test. McGill University which had jumped into the lead following yesterday's downhill victory, took a back seat in today's proceedings with Johnny Draper providing the only local entry in the college's top ten jumping list. The well-known local take-off artist breezed home fourth with 194.8 points. The next McGill name in the list was found in 11th spot as Bob Tilden took 188.7 points. Don Henderson of Middlebury

The jump was icy and pro-vided many hazards to the entries. Despite inclement weather, condi-tions were comparatively fair and no injuries were reported. Most of today's stars will compete with local jumpers for the inter-city jumping championships to be held tomorrow afternoon at Cote des Neiges. Neiges.

Colder Weather Aids Carnival Officials; Thaw Ruined Exhibits

In full agreement with Robbie Burns' famous remark that "the best laid plans of mice and men gang aft agley," McGill Winter Carnival officials today cast in inquisitive glance in the general direction of the local weather bureau.

Fearing the worst—that the recent unseasonal thaw would continue through the four-day.

McGill Carnival Queen Election To Be Closely Scrutinized

"STAR"

IN an effort to quash rumors circulating on the McGill cam-pus that the Winter Carnival Queen election is a farce, carni-val officials announced today that special plans have been made to ensure honest returns in Monday's vote. Hints from various student factions have been claiming that the queen has already been chosen. These rumors have been denied emphatically by John Dobson, chairman of the carni-val.

val

val. "They are unfair and ridicu-lous," he said. "This is a carnival, not a political squabble." To ensure that the election be held in the fairest and most open manner possible, the carnival executive have decided that the polls, which will be open on Mon-day from 10 a.m. to 3 p.m., will be presided over by representa-tives of the McGill Red Wings, an honor society of women students.

esponsibilities of returning offi-

Students will have to prove for undergraduate status in order to vote, and their names will be checked off against a voting list. Each vote will have to be initialled by the Red Wing in charge of the poll, and only initialled ballots will be valid in the counting. The ballot counting, which will take place at the McGill Union, will be observed by one repre-sentative for each of the nom-inees, (Cynthia Powell, Pego MacNaughton, Beryl Dickinson-Dash, Mercia. Forde and Gay Elkington), and one impartial member from the Student's Ex-cutive Council, who will act as official counter. Gym Display Attraction for Athletic Night

Amongst the feature attractions to be presented at Athletics Night III in the Currie Gym tomorrow evening is an innovation new to these sport festivals in the form of a gym and physical education display. Designed to be the dramatic opener to the event, the show will start at 8 p.m. sharp in the main gym.

The gym team, which has just recently won the intercollegiate championship from Toronto, holders of the crown since 1932, will lead off with an exhibition of barand ring, work. Doug Marsland, coach and former Dominion champion, will perform on the parallel bars ably assisted by Frank Barrett, onetime intercollegiate champ in this field.

Alan Pavio, who has brought honour to McGill by winning the title of "Mr. Canada of 1949" will do a stationary routine on the flying rings which won him first place in the intercollegiate championships. Clair Buckley will help out here with some flying rink work. Don Cochrane and Marcel Nadeau will swing from the high bar.

In second spot on the bill is a demonstration put on by the School of Physical Education. The girls of the department are to appear first in a synchronized springboard number over two pommel horses intendent to be an experiment in chthymical gymnastic movements. Immediately following, the men of the Department will display an excerpt from their "Gymkhana" show, which was so successful last year. Titled "Crossfire," the event, will feature men vaulting alternately from two springboards over the same pommel horse. This, along with the unusual lighting effects to be provided, will work up slowly to form a sudden, dynamic climax to the show.

Tickets for Athletics Night will be on sale at the door and are presently being sold in all major campus buildings and in Eaton's Sports Shop. THE MORNING AFTER: Weird beasts and allegories line Peel, McTavish and University streets this week as fraternities set up snow sculpture in connection with McGill's forthcoming Winter Carnival. The pachyderm pictured here is of the pink variety, executed by Sigma Chi as part of a tableau symbolizing a "lost week-end." Warm weather assisted the allegory as some of the melting animals took on that "morning after" look.

CARNIVAL SPIRIT

Many people have talked bitterly about the lack of spirit at McGill, about the poor attendance at athletic events, about the lack of coordination between the various groups and clubs on the campus. McGill has been called a metropolitan university, a transient college where the vast majority of the students walk on the campus, use the college as their "business' address, go about their work looking neither to right nor to left and emerge four or more years later fraving taken part in nothing, having contributed nothing to the university life.

There have been many complaints. Many people have been blamed for the situation which is, after all everybody's and at the same time nobody's fault. Many ideas have been put forward . . . yet the answer, if there be any answer at all, is in the sort of event that is coming up very shortly, an event in which every student can participate and lose him or herself in Mardi Gras atmosphere . . . the McGill Winter Carnival. This is our carnival, and we can make or break it.

McGill is staging its second winter carnival with a program that is as carefully planned and prepared as any winter carnival can be. This is as it should be. Canada is winter paradise of the North American continent. Montreal is the centre of winter sports in Canada, and McGill is the centre of Montreal.

Yet the entire success of the carnival does responsibility of the planners of the carnival, not rest upon the outcome of a hockey game, it is the responsibility of the students as a whole who the carnival queen is, which college wins of all of us.

the downhill and slalom events. The success of this as of any other college carnival will rest on student participation, the enthusiasm that they can work up over four days of just plain fun. Here lies the essence of the whole complex situation at McGill. Here lies the opportunity for McGill to raise to the fore, to spread her good name, to have a good time in home company and with the dozens of universities from the eastern States and Canada.

Cornival Tickets

The carnival is the biggest thing that McGill students do during the year. The carnival is one of the bigest things that Montreal and the Laurentian zone can look forward to. But it can very well be a failure if . . . and that will mean no more carnivals in the future.

On the other hand McGill can make this the Mardi Gras of Canada. We have everything to offer. The best has been arranged. Let us recapture the so-called tottering McGill spirit. Let us combine the enthusiasm of Queen's, and Western and all the other colleges and add to it.

Let's then fill the Forum, the gymnasium, the mountain, the ski trails. Let's let down our hair, put away the books. Let's forget about money, exams, professors, and lab reports. Let's join together and catch the festive spirit of the carnival. Let's make it a three day vacation that McGill, Montreal and the many visitors who are joining us will not forget. It is not the responsibility of the planners of the carnival, it is the responsibility of the students as a whole, of all of us. D. H.

hopes that all students will vote, as Houde. it is only by voting that they can help their favorite candidate to become Queen.

The polls open at 10 p.m. and close at 3 p.m., so be sure of getting to your booth between these times. All students will be required to show some kind of McGill identification, so that their names can, be checked off the list as they vote.

Polls Arranged

There will be two booths in the Arts Building, one in the men's common room and one in the women's common room. Those privileged to vote here will be students in Arts, Commerce, Science, Fine Arts and Arts and Science Common. Students in Engineering, Architecture, Divinity, Theology, Music, Education, and the Library School will vote in the Engineering Building. There will also be a booth in the Medical building, and those who will vote here will be students in Medicine, Phys, Ed.,, Law, Physiotherapy, Graduate Nurses Dentistry, and Social Work. Dawson students will vote in the dining room at Dawson. The five candidates will be at Dawson on Monday selling tickets for the Carnival, so that Dawson can look at their future queen in person.

Five Candidates

These are the five beautiful girls. from which the queen has to be chosen and assuredly it will be a difficult choice since all the candidates are very good-loking and also very talented. Beryl Dickinson-Dash, who is 20 years old and an Arts student, third year, is a native of Montreal. Gay Elkington is 19 and comes from Victoria, B.C. She is a third year Arts student and is athletically inclined being an active basketball and tennis player. Mercia Forde is an Australian girl, her father being Australian High Commissioner in Ottawa. She is 19, a second year Arts student, likes skiing and is in the Choral Society. Pego Macnaughton is a well known Montreal model. She is 19, a second. year Arts student, likes skating and is in the Athletics Night chorus line. Cynthia Powell is also a Montreal model and a very good skier. She is 21, in fourth year Arts, and is also in the Athletics Night chorus line. Apologies are due to Miss Forde for the misspelling of her name on the ballots.

Today is St. Valentines Day and the Queen will be revealed and she it is also the day that all McGill will take her place on her regal students vote for their choice for throne surrounded by her atten-Carnival Queen. The Committee dants, to be crowned by Mayor

THERE seems to be something amiss on the McGill campus. And, when there is something wrong, it can be generally taken granted that there are women responsible. for

They are—just about half of the co-eds. The trouble is (The Star was told, by a young man who should know) that these young women will not buy their own tickets to the Winter Carnival events.

And there is every reason to believe that if they don't purchase their own tickets for Athletics Night, the 'Forum Fare,' etc., they

won't go at all. For the boys are broke; and if they're not broke you can be sure they are close to it. Perhaps they have enough money to pay their own way but that's just about all! So co-eds, go dutch. Such is the advice of the executive of the car-nival, not just any old undergrad-uate, and they solemnly stress that if the women don't they won't see the carnival. the carnival.

Thousands on McGill Campus **Choose Carnival Queen Today**

Election Will Name Winner Among Five Lovely Co-eds

TODAY the McGill campus, including some 3,000 engineering students at Dawson College, St. Johns, will go to the polls. Their massed vote will decide the winner of the Winter Carnival

'queen' competition, and they have five comely co-eds to choose from. Beryl Dickinson-Dash, Pego Macnaughton, Gay Elkington, Mercia Forde, and Cynthia Powell will give Dawson College a chance to see just what they're voting on, for the young ladies are going out there

today, ostensibly to sell tickets for the carnival.

But The Star has it from an un-impeachable source that they are really going out to let the en-gineers have a first hand view of the five finalists.

Voting Supervised

Voting results will be tabulated under strict supervision from un-biased student executives, John Dobson, carnival chairman said today, in a firm reply to rumors that the election was a faree, and that the queen had already been chosen. chosen.

Each ballot cast (after the student voter has proved his undergraduate status) will be initialled by the Red Wing in charge of the poll. At the counting of the ballots, each of the nominees shall have a representative. Scrutineers will be Bob Gill, president of the Stud-ent's Executive Council; Joan Radley, president of the Women's Union; Rod Brown, president of the Student's Athletic Council, and Kayo Little, president of the Red Wings.

Although the votes will be counted tonight, the winner's name will not be announced until Friday night, when the Montreal Forum will be the scene of the climactical coronation.

Students at Polls To Choose Queen

McGill students went to the polls yesteroay and cast their ballots under conditions of utmost secrecy to determine which of five pulchritudinous co-eds would wear the queen's crown at their forth-coming winter carnival. Although the votes were counted last night the winner's name will not be made public until Friday, when the "coronation" will be a highlight of a program at the Forum

McGill Carnival On Tonight

COME blizzard, rainstorm hail or hurricane, the McGill Winter Carnival will open on Mount Royal tonight. A gigantic torchlight parade will launch the four-day event, as 'students and competitors from 24 colleges in the New England States and from all over Canada, will toboggan, skate, dance and sleigh-ride over the mountain.

But carnival officials want the general public, as well as the students, to attend this carnival. Everything on the mountain to-night (except of course, the sleigh rides) will be free.

A huge bonfire will greet spectators at the Cedar avenue and Cote des Neiges road, at 7.45 p.m. Over 1.000 torches will be supplied and the parade will wind its way up the flare-lit road to the park slide, where Dr. F. Cyril James, principal and vice-chancellor of McGill Uni-existy, will cut the tape offi-cially opening the festival.

Tonight, the McGill Winter Carnival will open atop Mount Royal in a burst of color and light with a gala evening's outing sponsored by the McGill Outing Club. It will be an event marked by torches, fireworks, bonfires, skiing, skating and dancing, and is an introduction to the four-day winter festival.

Proceedings are slated to get under way at the corner of Cedar Ave. and Cote des Neiges at 7:45 p.m. where a huge bonfire will greet carnivaleers. When all have gathered, enthusiasts will be supplied with some 1,000 torches prepared for the occasion.

A torch-light parade will then wend its way up the flare-lit Seppentine Road to the Park Slide, led by McGill's five aspirants to the position of Carnival Queen, who will be drawn in a sleigh surrounded by a group of white-coated Scarlet Key men.

As the procession reaches the slide, the official opening ceremony of the 1949 McGill Winter

Carnival Continues As Planned

"Nothing short of an atomic explosion will stop the Carnival tonight". With this announcement John Dobson late last night put an end to any fears that the Night on Mount Royal might not come off according to plan.

"Plans have been made for the entertainment of the crowds and nothing can stop the Carnival now that it is under way," he added.

This was in answer to queries on the campus as to whether unfavorable weather conditions woud affect tonight's opening. The answer is "No!".

Carnival will take place. Principal James will cut the ceremonial ribbon and the Carnival will be launched on a ceaseless round of out-door and indoor activities, all touched with that carefree spirit that is omnipresent at all such festive events.

Following the opening, a gigantic display of fireworks will ensue. Hundreds of dollars have been spent on fireworks and the show promises to be one of the highlights of the evening and one of the biggest such displays witnessed in Montreal. The newly re-organized McGill band will provide suitable fanfares and selections throughout celestial spectacle.

Crystal Beaver Lake, shining resplendantly in the light of bonfires, torches and flares will be cleaned and iced for skating to music. Half hour sleigh rides will be conducted from the slide around the mountain for 25c—the only charge of the evening. For those who prefer to try the novelty of skiing at night, the ski tow will be in operation on the lighted Park Hill.

The Chalet, overlooking the gay lights of metropolitan Montreal, will provide an escape from all its worries. Its interior will be decorated in appropriate carnival style, and arrangements for dancing, checking clothes, skis and skates have been made.

It is not often that Montreal has the opportunity of witnessing a spectacle so reminiscent of old French voyageur days, when all of the towns hardy citizens left their daily tasks for a brief respite "sur le Mont Royal." Yet Montreal

s still an ideal situation for such an event and an effort is made by McGill and the City to revive this tradition of years gone by. It is being stressed by the Carnival Committee that this is not an evening for McGill students only. Rather it is an event to which the public is cordially invited, even if it is not to take part in the activities but only to watch them. NEWS . PICTURES - SPORTS . COMICS

The balmy weather hasn't aided the outdoor events of McGill's Winter Carnival, but it noves indoors tonight with a colorful and varied program scheduled for the Sir Arthur Currie Memorial Gym-nasium. Tomorrow night night it transfers to the Forum with a hockey game against Varsity the feature attraction. One thing we never knew about the carnival until yesterday is that it's the largest students' undertaking of this type on the North American Continent. It costs more money than any other and requires more organization.

more organization. That's why there is a certain amount of risk and worry connected with it. The weather can't be guaranteed and it ruined the Carnival a year ago when it was a inancial failure. If this one also fails, there will be no more McGill carnivals. Only if it is supported by the Montreal public can failure be averted. McGill Queen Receives Crown on 21st Birthday

Beryl Dickinson-Dash Accepts Plaudits of Thousands at Forum

"ONCE IN A LIFETIME THRILL" came the way of pretty Beryl A A Dickinson-Dash sharp at midnight last night when she not only became 21 years old but also was crowned Queen of the McGill Univer-sity Winter Carnival.

Beryl, a third year arts co-ed, made no secret of the way she felt about the whole thing when she said: "Tm so thrilled I can hardly believe it." The crowning of the Carnival Queen was the climax to a three-day series of winter sports events that, together, make this the biggest college effort of its kind in North

America. And a nice, glittering way to climax the event it was. way to climax the event it was. As eight thousand people filled the Forum and cheered themselves to an echo, Bery! was weighted down with her queenly robes and sceptre and, as the visible signal of her honor, had the crown placed upon her raven locks by Mayor Camillien Houde. her honor, had the crown placed upon her raven locks by Mayor Camillien Houde. Beryl was chosen for her exalted honor by the more than 8,000 students at the university in a se-cret ballot. She won out over four other candidates who immediately became princesses and her faithful attendants. The queen herself said that she nonestly never expected the honor. But to have the unexpected happen, especially on such a special occa-sion as a girl's 21st birthday, was a fairly heady experience. But Beryl carried herself well. Wearing a fuscia-colored dress, she hid her excitement and under-standable nervousness with a queenly dignity, and accepted the plaudits of her subjects with the wide, warming smile that had done much to win her the nomination. Once off the dias, however, she was as femininely excited as the occasion demanded. She told those within earshot that her mother and father had marked the double occasion of her birthday and crowning by giving her a hope chest. And Dunbar Rapier, 20-year-old pre-medical student who has the honor of escorting her dancing, roller skating and hiking, contributed a set of silver necklace and earrings. The telephone rang constantly-reporters wanting interviews photographers wanting pictures and model agencies offering jobs. On this last, Beryl was non-com-mittal, saying that she planned to teach high school or go into social service work following graduation. Beryl won the balloting over Gay Elkington, 19, of Victoria. CARNIVAL SKI SPEEDSTERS: Betty Sutherland, of Middlebury University, and Dartmouth's Tor Arneberg shared the spotlight in yesterday's initial event in the skiing phase of the current McGill Winter Carnival—the downhill race at St. Sauveur. Miss Suther-land, sister of Montreal's Hec Sutherland of Olympic team fame, led the ladies' division with a run of 57.2 seconds. Arneberg tore down the trail in 44.6 seconds to lead the men.

Dartmouth Leading in Carnival, McGill Third in Skiing Events

(Special to The Gazette)

(Special to The Gazette) St. Sauveur, Feb. 18.—McGill garnered a slim margin of points in this morning's men's downhill to lead Dartmouth and Middlebury but dropped behind because of a poor showing in the afternoon's slalom race as the skiing events of the McGill Winter Carnival got under way here today. At the end of the day, when the complicated mathematics of the event were completed, McGill stood first in the downhill, eighth in the slalom and third in the combined. Dartmouth's Big Green team was considerably in the lead, standing first in both the s'alom and the combined. Middlebury was second in both these events, with 10 colleges competing in the meet. Tomorrow will see cross-country

McGill suffered when it lost the services of its ace slalom artist, Jack Griffin, who injured his shoulder in the downhill and was forced out of the race.

The only McGill entry to place in the first day of competition was Bruce Fleming, who was second in the downhill with a time of 44.8 seconds, two-tenths of a sec-ond behind Dartmouth's Tor Arneberg.

Arneberg's teammate, Colin Stewart, won the slalom with two fast runs down the icy course. Mc-Gill's hopes fell when three of their four entries in this event had falls on one or other of their runs.

The highest position captured by a Mc-Gill student was seventh, taken over by Andy Hugesson. The next two McGill entries were lodged in 21st and 29th spots, these being respectively, Bob Tilden and Bob Dawson. Dartmouth College grabbed off

Carnival Has Unique Ending With \$2,000 Profit Reported

McGILL concluded its second Winter Carnival with a ball on S day night, and to the surprise of everyone with the except those 500 who worked on the various committees, there is going a profit!

Now this fact may not seem so surprising to the layman, but students will tell you that all university enterprises are won failures. Everything goes according to plan, the audience is pl but financially, it generally flops.

STAR

If you should ask 20-year old John Dobson, carnival chairman, just how much his \$18,000 venture made during its four-day run, he would politely evade your ques-tion, explaining that the books hadn't yet been straightened and could you come back in a few weeks?

weeks? He does this so nicely you will be glad to come back in a few weeks. But just to save the sus-pense, The Star has it on good authority that the profit will be about \$2,000. On Saturday night, after the cross country race at Shawbridge, and the jumping in the afternoon at Cote des Neiges, McGill staged a monster ball at the Currie Gym.

Queen Presides

QUEBEC

Winter Queen

McGill University students take the election of their winter carnival queen with deadly seriousness. Last year there were charges that the vote was rigged. This year the student council adopted a foolproof ballot system and appointed dependable poll watchers.

Nominations for the most beautiful, poised and personable coed on the Montreal campus drew 26 names. After a series of quick interviews, the student council narrowed the field to five, assigned a campaign manager to each, and opened the gate for the traditional fraternity politicking.

Most enterprising campaign manager was Dunbar Rapier, a Negro third-year pre-medical student, whose candidate was Beryl Dickinson-Dash, 21-year-old daughter of a Montreal railway porter. Rapier posed Beryl before the snow sculpture decorating the university campus for carnival week, then tacked the photographs all over the campus. He persuaded Montreal radio shows to get in a word for his candidate.

At week's end, when Montreal's Mayor Camellien Houde puffed up to McGill for the carnival ball, he put the crown on Beryl Dickinson-Dash's head. In the vot-ing by McGill's 8,500 students (150 of

them Negroes), Beryl had posted a decisive margin. The student council gave out no figures ("It might injure the other girls"), but it was satisfied with the elec-tion result. McGill's students, untroubled by any race problem, had merely voted for a popular and attractive girl, regardless of the color of her skin.

Carnival Queen to Appear at Show

THE McGill Carnival Queen Beryl Dickinson-Dash and her attendants, Pego Mac-Naughton, Gay Elkington, Cynthia Powell and Mercia Forde have volunteered their services to appear at the Rotary Benefit Fashion Show at His Majesty's Theatre this week. They will model the gowns they wore at the coronation ceremony. The show opens tonight.

REGAL MAYHEM_THEY LOVE IT Star Feb-1 **27 Young Beauties Enter Race** For McGill Carnival Crown

By Bill Edwards

THIS is for the ladies, particularly for the young ones. As a matter of fact, and getting on with it, this is amiably aimed at 27 young and pretties who (1) are in at least their second year at McGill University (2) have had their names submitted, picture and signatures of 25 student supporters attached, to the Student's Execu-tive Council (3) wish to be queen of the McGill Winter Carnival. Now we were told to go out and find just what this regal role involved. Never having been nominated for anything, much less a carnival queen, we decided to see.

carnival queen, we decided to see someone who had.

someone who had. There is only one of such roy-alty in existence, that is last year's. This narrowed the choice and enabled us to get to the root of things. We went to see Sue Bishop, 21, third year arts, who is a lovely from Toronto. Further, she was glad to see us; perhaps she could help, and would we like to talk of her? We would. Truly, though we

We would. Truly, though we used to hold queens in awe, and worshipped from afar, when the interview was over, something had snapped in us.

So you 27 want to be carnival queen! So you think it's going to be all cookies and crowns!

Pleasant Chores Ahead

Well, attune yourselves, for we have news.

From the man's position, the whole process is terrifying. This, more or less, is what happened to last year's Queen, and will happen to you.

to you. Tomorrow night you will be in-vited to tea at the McGill Union. Tea in this instance being synony-mous with an acid appraisal by the Student's Executive Council-who will coolly quarter you as to personal charm, the ability to photograph nicely, and the real test, the endurance to stand this scrutiny without complete collapse. The S.E.C. will pare you down to five. If you should get through that inquisition without losing your sense of propriety, you will then be allowed a 17-day period with which to work yourself into a hysteria of hope.
