 Dear Sirs

We receive I suppose of goods shipped for you
 in the "Scarus" Capt. Macgregor, and at present we enclose
 the Bill of Lading — the Shipping charges and insurance are simply
 for our goods — Johnston & Hunter & Co. of Glasgow & Boydell
 took charge of their own shipment & insurance. About you have
 a state of how the account stands what trust you will
 find correct. There has been no new order for the
 we informed you only a part of the Montreal's business was prin-
 ted when the Translator died, and the Works in the printers
 hands. — The Gaelic Tracts are sent you quite a different
 from those printed by the London Tract Society to those who
 know the Gaelic language they will find them superior to those
 printed in London.

We are Dear
 yours very truly
 Wm Whyte
