Wesley College  
Montreal  
Nov. 26, 1855-

Dear Father

I received yours of  
Nov 17 ~~late~~ after I had posted  
my last.

With respect to Wilson's Medi-  
cines my remembrance is that  
we received 3 ~~to~~ boxes. Two were  
delivered to order. The third when  
I left was under the desk in the  
back shop. A dozen or two only  
had been taken out of it.  
Perhaps it has been pushed  
into some out of the way place.

I have got a copy of  
the End of Dr. Cumming but have  
not had time to read it. I hope  
to do so soon.

We should be very glad  
to see copies but I do not know  
how you could spare them so long.  
I am sorry there is no word of  
Henry. It is hard to say how

Still sell them. I never  
saw the mepage about the  
hammer, but he fears he  
can do little with it.

Please send me by  
mail Chambers & Brent History.  
I forgot to buy one, and cannot  
get one here.

Since I last wrote we  
have had continued winter  
weather, nothing but snow  
& frost though generally fine.  
One night the temperature only  
70 above zero. Our house is  
warm. So far we have had  
only our hall stove lighted, which  
is sufficient to warm our dining  
room and my library without  
any fire in them. We had a  
little fire in the dining room yesterday  
and to-day none because it is  
cheaper than from necessity. We  
are all well. George and Anna

o baby have great appetites and  
are quite fat. If all be well,  
I shall try to bring George with  
me next spring, but his mamma  
will not hear of leaving him.

Mr. Sedgwick has not yet  
received any letter from her  
friends. She is well. They  
should mark their letters via  
Portland, unless where there  
is a chance by steamer.

I send a paper with an  
abstract of the spring lecture of  
my course. Papers to & from  
New Britain take a week longer  
than letters to go, unless prepaid  
a penny to allow them to pass via  
the States. So at least I am told,  
and it may be useful to know  
this in sending any paper wanted  
to reach soon. I should like to have  
in this way the Museum with  
notice of my book when you
