Piquette May 26

My Dear Sir

I rec^d on Saturday Night the May No of the Nat Journal the March and April Nos are missing how is that? - I write to let you know so if they have been sent and mislaid on the road you may make an inquiry and perhaps ascertain where they are if lost please order duplicates for me as I should not like to have the set spoiled - The last No had the plates much damaged on the road it was folded instead of rolled and I suppose the driver was put under the cushion however I am in hopes I shall restore by the aid of moisture and pressure

Yours truly

Charles Fernald

Pictou

P.S.

When sowing my seeds last week I observe several sorts were mislaid instead of water melon you sent muske and some sort of kidney Beans instead of cluster and I did not get the sorts of lettuce I wanted and another besides
