

Charlotte Town  
December 8<sup>th</sup> 1836

Dear Sir,

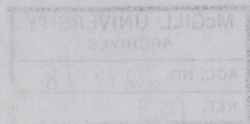

I expect I must  
~~now expect~~ give up  
the idea of seeing you  
this year. I thought I  
would have been enabled  
to go to Pictou during  
the summer, but some  
thing always occurred  
to prevent me, so we  
must look forward to  
the next season for that  
pleasure, and if you  
will promise to come  
over and spend a few  
days with me I will.

make you a return  
visit.

I have during the  
last year been studying  
Chemistry - a Science ~~with~~  
which I have always  
desired to get a know-  
ledge of and <sup>was</sup> one of the  
branches <sup>of his profession</sup> in which my  
poor boy excelled. He  
had a very nice little  
Laboratory in my House,  
which I have now the  
opportunity of using, but  
there are several articles  
broken or used up. I sent  
for an apartment <sup>if</sup> which  
I <sup>was deficient</sup> required to Edinburgh  
but by same neglect

on the part of Mr Griffin  
they have not come  
to hand, and I am  
now at the last hour  
obliged to look for <sup>some of</sup> them  
nearer. Would you be  
so kind as to enquire  
of Mr Frazer or any other  
person who could sup-  
ply me with the enclosed  
list and send them  
with a Bill and I  
shall feel particularly  
obliged.

I am Dr Sir  
yours very truly  
James O'Hanlon

Letter  
to Dr. Hay
