

McJannet College
Christmas Day

Dear Father;

Yours of Dec 13 and the parcel for the children arrived today and a nice day. The children have had their New Years gift on Christmas. They are all very much pleased and William Bell says he loves grandpa very much. I have often thought of you today and wished I could exchange greetings with you. I have been writing all day at a geological paper on the state rocks of New Britain, which will be a considerable step in the advance of its geology and perhaps the last and of that kind I shall be able to give for some time.

Give my love to the Pitten Paper that my agricultural book is out at last. Please send me a copy by mail. I enclose a note to Keating asking him to send some free by mail to myself and booklets here. I shall try to get the paper from Rainey & enclose in this. Perhaps you would send me a list of your books

but has not done so. When I
get it and pay it, I shall enclose
it.

Our college subscriber has
done up to £12,000 and will send
I think £15,000.

I have written so far and find
great pleasure in writing so close
to the way just for just mail

Yours affectionately
W. Dawson
