REF. 19

McGill Col
July 13/57

Dear Father

It was with
great pleasure that I
learned from your of
July 4, just received,
that your health is
improving. I hope
it will continue to do
so. I trust you will
succeed in reading a
part of the things of the
summer you mention. I
shall attend to them
here. I believe I

The end of July,

Our High School
and Normal School
close this week, and
after they are over
I shall have a little
time to turn myself
about. To-day we
have the extreme
heat of the summer
90 & 100° in the shade,
and I hope it will
be quite pleasant when
you get here. At present
though it is comfortable
enough in doors, it is

not enough in the town.
Then in Peter, Help
I have desired you to
inquire of George could
get here any opportunities
of improvement in
Architectural drawing be
in unites along with
employment. Please
say to him that I
believe unless some
changes, there will be
no opportunity of finding
employment, but that
the use of opportunities of

education are some
evening classes in the
Mechanics Institute,
which I think would
not amount to any
very important training
in drawing or, though
they might be useful.

I have not had
any opportunity yet
to inquire as to terms
of entrance with an
Architect.

Give my best wishes

Dear friends, of course
I agree. With much
love to you, I am yours
affectionately
W.D. Mason

Serge & Warriman
Thank you for your
letter, and send
all good wishes. Serge
will try to write next
time
W.D.
