James Dawson Esq

Dumfriesshire,

To my
astonishment my Workhouse man
has just now produced the original
Panel which was sent to Halifax
after having lain in Miss Stubs
Papers for months. In the
mean time it would appear that in
this dilemma I had got up other 2000
plates and which are at your service
if wanted and I trust there will be
no more said about the matter
which was entirely the fault of my
agent at Liverpool in not having
forwarded the Panel Yours truly
Wm A Lewis
