

2nd sheet

CH380

It is 30 or 22 years since we had
one similar. The sheep farmers have
sustained very heavy losses among
their sheep in consequence, many
of them dying in hundreds from
sheer want in the upland districts
even in this district things are
beginning to assume a serious
aspect food for cattle is almost
gone and there is none to buy
we are yet in the midst of frost
and snow with little appear-
ance of a change but bad as we
are in many places where the
crops were next to a failure last
year the Farmers are selling off their
stock I heard of a man last week
who had a spare horse to sell
but he could not find a purch-
er he had him home and actually
killed him because he had no
food to give him but surely
we cannot be sufficiently

Thankful to God that there is
food for man and. He knows
our wants and can supply them
you will see by the paper I have
sent you that the Revival is going
round and round so it seems
to me that we are in similar
circumstances to what you were
at the time of its commencement
in America, May the Lord in like
manner visit us and we shall
be blessed indeed.

I hope this may find you all in
good health by Mother is getting
rather frail.

Please Present our compliments
to your Son & Family & accept
them for yourself.

Hoping to hear from you soon

I remain your affectionate
Niece

Fane Louisa
