

A person who met Mr. Poole / now  
in Government service as geological  
surveyor / at Himantburg last week  
says that Mr. P. told him he had  
discovered Gold in a great number  
of places in that section of the  
Province.

We have now no doubt  
that Nova Scotia, so long the bug-  
bear of naughty children - must  
at last rank with other gold  
bearing countries and take a  
start forward immediately in  
the march of progress. We  
hope poor Pictou will get its  
Railroad & come in for a share  
of the extra loaves & fishes -

Poor Adam Archibald's  
son George - recently returned  
with his father from Canada  
accidentally shot himself with  
his gun on Friday last & survived  
only an hour - he was to be  
buried today.

Yours very truly  
Howard Trimmer

A General Letter  
to the  
H. Primate  
22<sup>nd</sup> Oct 1861

My dear Sir,  
I have the honor to have been  
discovered with in a great number  
of places in that section of the  
Province.

We have now no doubt  
that our data, so far as the  
year of receipt of children - must  
at least rank with other years  
bearing comparison and take a  
great amount of interest in  
the course of progress. We  
hope your letter will get to  
the children some in for a share  
of the best of our work.

Our warmest wishes  
are yours - recently returned  
with his father from Canada  
and with his mother and himself  
has given us his first last during  
only in his - he was to be

Yours very truly  
George Peck
