

Letter  
Dr Jno Walters  
92 Channing Cnsp  
London  
1858

39 Spring Gardens  
Charing Cross  
1858.

On looking over  
the Case Book, I find the  
description of your case there  
entered, and it seems my means  
have not been adopted, not any  
reply having been received by  
me to a letter, I wrote you  
stating my positive, and  
candid opinion that under  
my treatment your malady  
would be permanently removed.

If the amount named in  
my letter was considered more  
than you would like to give,

and as your case is most  
certainly curable and of a  
description that will be of  
service as a reference, and  
inducement to others to  
apply, I will willingly  
send the means of cure with  
plain directions to effect  
the same, on receipt of a  
Post Office Money Order  
for one half the amount  
named in my former  
letter. Waiting your reply  
I am

Yours very  
truly  
Geo. N. Watters

CH 380

P. S. After writing my  
letter to you I mentioned to my  
Husband your request to get Deuse

He told me that there would  
be no trouble about getting it on to you  
as they have an express Agent here

I send tomorrow a small Box  
of it on to you which I hope will  
come safe to hand. There is also  
one or two little things to the children which  
are of no value except as coming from  
me <sup>from</sup> New Brunswick
