

The Porcupine Nugget

A WEEKLY NEWSPAPER PUBLISHED IN THE INTERESTS OF THE PORCUPINE GOLDFIELDS

My very dearest Lois

Cobalt, Ont., June 7th 1911

I left Cobalt last Friday on the 2:34 P.M. train which I caught on 15 minutes notice. I can't get a letter from you or from anybody now until Sunday when I expect to be back in Cobalt.

Are you having a nice time now-a-days? It seems a very long time since I have heard from you, because things have been happening so quickly and it hardly seems possible that I have been away from Cobalt less than a week.

This is a most interesting place but everyone is so lonely for a girl and sweetheart I am tearing along so that I may get back to you in Montreal before you leave. You might hate it here - I don't know. Bernard would love it. Just now the principal things in evidence are men, mines, mosquitos and muskeg. - That leaves out black flies which is wrong, because they should certainly be represented, if numbers count for anything.

I just thought of writing now because one of our men will carry it in as he is going home this morning. - It is nearly 7 A.M.

We have one of the neatest houses in town, just like an ordinary one story summer cottage.

We walk miles & miles every day. Must stop. The man's going. Little piles of love from your Edward.
Am going to take a holiday & will tell you all about it today etc.

June 7th 1911

They were very pleasant here
I left Cabot last Friday on the 2:34 P.M.
train which I caught on 15 minutes notice. I sent
you a letter from you or for any body you until Sunday
when I expect to be back in Cabot.

In your leaving a nice time was a day? It seems
a very long time since I have heard from you, because
things have been happening so quickly and it hardly
seems possible that I have been away from Cabot
less than a week.

Then a most interesting time a night
I had for a girl and sweetest I am leaving along
that I may get back to you in Montreal before you leave.
You might like it here - I had some beer and would
love it. Just now the principal thing in evidence are
the various mountains and mountains. - That leaves out
back. This which is very, because they should
be represented if numbers count for anything.
Just thought of writing you because one of our men
will carry it in so he is going down the mountain. - It

is very nice
I have seen if the weather here is nice, just like
when you are down in the mountains.
I would like to see you and your family. I
will be glad to see you and your family. I
will be glad to see you and your family. I
