

I do not
think any of
you believe
I went so far.
I got me
addressed to
Kewatin
Manitoba

Kewatin Beach.
July 10th / 12.

My dearest darling man -

I simply exist without you,
that is all - It is nice of
you to say you enjoy my
letters I always feel that
they are not one bit nice,
at least not half nice enough
to send to a special person
like yourself dear - I am
glad if they are more
cheerful; it is I assure
you a strenuous effort to

make them so². It was the
worst + the best thing you ever
did send me out here -

It is a little bit hard Edward
having all the family here but
you - Hugh + Ken + Terry look
so nice together, but it would
be so much more complete
if you were here to head the
room.

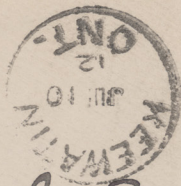

I wish you could have been
here the day + night before
last. In the day, we had
3 of the worst thunder storms
I have ever experienced - the
lightning + thunder were

wopul, I was so tired after
this much, but instead of
then stopping there, in the
night a most alarming wind-storm
came & with it thunder &
lightning - it was quite the
worst wind I have ever heard
I was truly scared - and
absolutely exasperated, & tired
from the excitement & fear
of the storm. I said to
Naomi in a very annoyed
voice - "That I was all
wore out, with this damn
climate" - Poor dear

Naomi was rather shocked
but did not refrain from smiling.
she crawled into my little
camp bed with me & we held
hands till the storm blew
over. I do not yet understand
how we both managed to be
comfortable in this one wee
little cot.

Hugh arrived on Monday,
being rather weary after the
long journey - but he has
been having a fine time
since, sailing your new
diddy - They went out
yesterday & had a most

Climate &
Thunder storms
