Dearest Lois

You should see Con's
kid. He's the greatest
looking little baby
you ever saw. He comes

much nearer having a real
face than any other baby
I've seen.

Just now he's got quite
dark hair. His eyes are dark
too because they're all
pupils.

And I think he has got the beginning of a "Harrington" bridge to his nose. He's looking "husky" but ~~his~~ his voice doesn't show any signs of being the same.

I got his fist around my little finger. It seemed so queer to be playing with Con's kid. Of course all this time Con was holding him. I saw him three times during the evening, once in the middle of his dinner when he got somewhat "peevish", once after he had finished

and once after ³ he'd had his bath.

I did not see Muriel but she is getting along first rate and her voice certainly sounded cheerful. The baby was 10 days old yesterday and weighed 10½ pounds. Muriel was up for half an hour and expected to be up half an hour morning and evening today.

The evening before the baby was born Con + Muriel were out ~~in~~ in the motor and called on one of their friends. I've forgotten who it was but I know

the friend was very much surprised the next day.

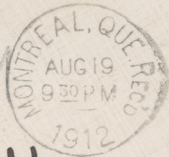

I must try to find time to run over & see Con again tonight

The first thing you will have to do when you come home will be to run out to St. Agathe and see your new relation. Perhaps we could go together. I don't feel nearly so lonely tonight.

Lois, my letters must sound crude. My nerves make me feel impatient & jumpy but I love you better than I can ever tell you. To think that I have pleased you in anything is heaven. The reverse is H-11. Darling I adore you but your picture no longer can make me feel quiet & happy as it used to. Nothing but yourself or your letters are any good. With Love Edward
