

Letter to
Edward S. Winston
from his wife Lois

85-1 University St.

Dec: 12th / 14.

Dearest Old Lorey' -

How are you & what are
you doing, and how is the
work getting along. have the
tests been satisfactory, I mean
the firing tests. and how
many shells did you ship
this week — answer in
full reqd.

I have not had a single
quarry about the house yet
so it does not look very
hopeful.

home. it was very nice, but
the party did not seem complete
without you darling —

Let me know if you want
Xmas cards, & how many as
soon as possible — I hope
you took my hint about beginning
to write your Xmas letters!

The baby was dreadful
last night — poor Clare
had her — It is my
turn for her tonight. She
is so sweet though —

The family have just got
back from church — I did
not go as I ~~did~~ do not

I am ringing up a good
many friends to see if they
know of anybody and a
telling everybody I speak
to -

Did you hear that Hugh
Reek had gone to Eng.
he is looking for work with
the aeroplane people, not
top to the front you know,
but I suppose more the
drawing of plans etc.

I had afternoon tea with
Gracie on Thursday, &
then stayed to dinner with
them & Leslie brought me

yet feel fit enough to exert
myself —

I am glad that Mrs Adams
has a son, she is brave I think
the way she goes straight ahead
I do hope it lives —

Darling I hope you are being
careful of yourself — I am glad
that you have the big room still.

When are you coming to see
your 2 darlings? — You must
be very lonely sometimes, and
I will be glad when we are together
again. I answered Aunt C's letter I told her
what you were doing, but did not tell
her about the shells themselves, I left
that for you —
much much love darling
Lois E.
