

Am enclosing my dividends

\$12.00 - Friday July 8/22

Dearest Edward.

I'm hoping to get a nice long
letter from you today - I believe
that there was a bad wreck - so
that the mail may be delayed.

Thursday.

Did my house work - then went to
the beach. Sat with Sophy Mrs Arthur
Brown etc. Alice went off to
visit the old mill across the
lagoon with Bruce & Constance
they had a wonderful time -
after they came back we all
went in swimming - Alice had
a terrible adventure - She was
swimming when suddenly she
found many long red tentacles

around her neck - She jumped
up - screaming like blue
murder - one of those horrid
jelly fish with steamers at
least a yard long had stung her
very badly - poor child she was
terrified - she got away as fast
as possible but her neck & throat
were covered with his steamers
and she turned scarlet on her
chin - neck etc where the thing
had stung her. She went on
shore - with the words - "Well that
settles it, I won't go into that sea
again" - and I don't blame her
they are beastly things - !!

After he d I took the Steeplechase

their 2 kids & John & Alice for
a drive Mr Stevenson thought it
would be nice to go to the Pavino
Falls - we got there eventually
but the road was terrible! -
We had tea on some lovely flat
rocks beside wonderful rushing
water - right in the middle of
the woods - Mr St. said he
would grant me my drivers
licence after what we had
been through -

Last night - Mrs Brown, Mrs ^{Park} Peck
a Mrs F. Laid came down & we
played bridge - Mrs Brown
brought me some strawberries

shot cake + I made some tea
so we had quite a supper.
after they left a party of 2 men
& 2 girls got stuck in the sand
in a motor where you did. they
were making such a noise I thought
I would go & help them - I showed
them where to get boards & how to get
out. And they never even had the
decency to thank me - next time
they can sit in the sand till morning!

Alice & Job have just taken the
washing up - I am expecting the back
I thought that we would take a
walk down the point - before we
go to encounter the jelly fish again!!

I hope that you are well & happy
dear - my best love to you
affectionately Lois -
