

up north at <sup>5-</sup>Cobalt etc for the  
past month, that it was terribly  
cold the leaves had not begun  
to bud & that there was still  
snow on the ground. I am  
not surprised, as it has been  
very cold & dark here, all  
month. The sun came out this  
afternoon for a few moments  
& it began to feel quite warm.

Baby seems to be a little  
more like herself today so I  
hope that she is over the worst  
of her ailment. We put  
onion poultices on her feet which  
seemed to help. — whooping  
again I've just had to run up to  
her —

I wonder if you have finished  
 men origin your "Other Wise  
 Man" yet? - And if you enjoyed  
 the other little book I put in  
 for you - I always feel that  
 if you have a little good book  
 with you when you are travelling  
 that you are kept safely -

It will feel quite strange to  
 have a husband again (and  
 I am sure <sup>that</sup> if you will be sweet  
 and ~~so~~ serene. I am  
 looking forward to having you  
 with me. I will take you  
 for some nice little drives in

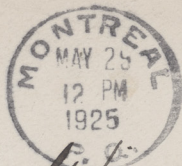

my car. + will <sup>my</sup> show of my  
new house etc. And my new  
Baby! I want to say so many  
things to you + write such nice letters  
with all my best thoughts, but I  
seem to have lost the art - everything  
that I do now a days has to be done  
in such a hurry, that I don't do  
anything well - Perhaps you  
will try + find out more about  
the real little me when you  
come back, So often I feel that  
you only know me by what I  
do + accomplish, you know  
nothing of my thoughts, aims etc.  
Well I'm beginning to get serious +  
that's where the door shuts + you  
~~to~~ know, no more of me -

I've got yet <sup>8.</sup> some things to do & then  
I go to my bed, — . . . .

No news for your mother —

I do not know where to address  
this to but will send it to  
Winnipeg, There should be  
some where between Nelson &  
Winnipeg — but nobody seems  
to know —

With much love to y  
dear  
Yours Lis.

Edward J. Winslow Esq  
c/o Can. Ingersoll Rand Co.

Winnipeg  
Manitoba.

onion  
poultices on  
the baby's feet  
to cure an illness!
