Dear 'Eue & Lois,

I thank you for your good letters. I am very glad to get them though I can't answer them as much as I sh^d like, there is so much to write. Have you tried any sketching? or are you doing studies of flowers for designing? They w^d always be useful - all designers need stores of such to work from. I was pleased to hear that Eue c^d ride the bicycle, I hope Lois takes a turn every day - it is such good exercise. What about golf? I hear you all look so well & happy, that I might as well stay away for good - Is the Sunday book any good? I had not time to look at it, but it was highly recommended. Silvia & Grace have fine times in this big garden - & the new chicks grew very big while I was away. No wonder

They eat all the time
 Think of the children his going
 to school every day, all thro' July
 their holidays do not begin till Aug.
 I don't know how long they do have
 and aren't sorry you haven't had so
 much bad weather, but here it
 is even worse, so few fine days
 & you always take out an in-
 well, you are sure to feel as if you
 it - but always quiet & peaceful
 with the dead wood? I hope
 all things will be done for you
 work from. I was pleased to
 that you'd like the people, I hope
 has been a very busy day & I
 and good evening. I wish you
 good! I hope you are all back to me
 I hope that I might as well
 stay away for good. As the
 back any good? I had not think
 back at it, but it was highly
 convenient. I hope I shall
 find time in this big garden
 of the new children open very
 while I was away. I am
