

**MCGILL UNIVERSITY
MONTREAL**

19 February 1971

Dear Mrs. Winslow-Spragge:

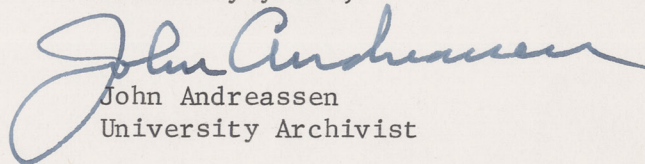

I enclose two accessions sheets, for nos. 1010 and 1138. They are, of course, merely preliminary and will be expanded in due time. We've made arrangements for color photographs of the three framed items, and they are to be done next week if all goes well. The small photo in which the young John William Dawson has two birds in hand will also be given attention at the same time. When the copies have been made, I'll telephone and arrange an appropriate time for the return of the originals.

The slides of your mother's water colors should be completed shortly, and I'll try to have a set to present to you at the same time I return the three framed portraits, and the tintype.

I've spent several evenings reading Life of Sir William Logan, and next Monday morning I'm going to have a look at collections now in the Geology Department. I look forward to an interesting and enlightening session there.

I want to thank you again, for my most recent visit with you in your home. I only wish that there were more hours in the day to do the things which must be done to describe the valuable materials you have presented to the University Archives.

Sincerely yours,

John Andreassen
University Archivist
