

McGILL UNIVERSITY

P.O. Box 6070  
Montreal 101, Quebec  
3 October 1972

Dear Mrs. Winslow Spragge:

I talked with Margaret Duckworth following receipt of your kind letter of 27 September this morning and she agreed to send you directly ten copies of the McGill Reporter for 20th September, 1972. She seemed very pleased to do so.

About the pictures taken at Place Bonaventure. I asked Dr. Eakins to place an order for them for the collections here and when next he drops by, I'll find out the name of the photographer and order some more, if he hasn't done so. My impression is that he has already ordered a set for you.

I'll be in Ottawa tomorrow and Friday of this week and I have a paper which must be completed for the Archivists' meeting the first week in November in Columbus, Ohio. While assisting with the Geological Congress exhibits, I set aside those materials which are to be returned to you but the lists will have to be checked out with care and it is unlikely that I can complete the job much before 15 November. I do hope that this delay will not inconvenience you.

Mrs. Andreassen and I have been too busy to get out to our stone house for several weeks. Such conduct is foolish.

With kindest regards,

A handwritten signature in cursive script that reads "John Andreassen".

John Andreassen  
University Archivist
