

Dear Mr A.

Just a few belated lines to thank you again for the delightful loan of books to me on - I was so interested in ~~the~~ all ^{you showed over} and it was so easily accomplished through your kindness & good planning, I was sorry when it was all over.

I was very glad when my father's portrait was hung - & thought that both his & Dr Ruttan's ^{looked} ~~were~~ well ^{where they were} placed ~~where a comparatively few persons would see & be interested in them~~ - They are both excellent portraits and used to look well in suburban halls - but times change - & locations ~~change~~ things change - & we must be content with first decisions - & I am sure that they are enjoyed by many in that very pleasant room - *

I thought your little exhibit in the case in the hall of the Administration Bldg. quite charming &

naturally I was pleased to see that you
~~had placed~~ photographs of my
parents' photographs there

As for your department, I find it
most fascinating - what an immense
amount of material you handle. I
was so glad to see how you did
the micro filming & I can now
visualize how you are photographing
the sketches with such a very fine
camera they ~~are~~ ^{are} sure to turn out
well - you are indeed a wizard to
keep all these historical papers in
such perfect order - ~~as I know of~~ ^{to expense}
~~take much patience~~

I always find the Faculty Club
a very pleasant spot ^{so} & it was ~~also~~
nice to talk ^{over} many things of
interest while we partook of the

the very good weather char-

Thank you again for a very happy ~~time~~ + red letter day

I am sorry I have not written sooner - but I have had 2 guests since my return + have had ^{them} no moments for writing - now have I yet read the typed sheets which you gave me - & which I am looking forward to studying -

I hope all goes well with you - + with my best wishes

Sincerely

LDS -

~~Have been taking since 11 AM. Colored name
my letter family they are so excellent for~~

* You thought fulness in having
me meet ~~2 of the most~~ ^{Dr Wickley + also Prof J}
~~important~~ professors, was
greatly appreciated, I seldom
have an opportunity in these
days to meet any of the ^{actual}
University ~~staff~~ ^{Faculty} so it ^{was} ~~quite~~
~~a pleasure~~ ^{pleasure} ~~to meet~~
~~2 such~~ ~~clever~~ ~~&~~ ~~interesting~~
~~men~~ ^{with} (these two ^{men} are
such respect - ~~or regard~~)

^{Dr} Prof Wencker,
+ Prof Frost.

Yours respect
