

Dear Mr. A.

Jan 12/73.

It gives me pleasure to send up another small charge to help ~~enlarge~~ increase the revolving fund which you are in process of building up - I was surprised to hear that it had already grown so quickly -

I am also enclosing a typewritten copy of the paragraph on Wm. Bell D. which I told you I had come in in the book about Pictonians - I need also send you the book if you cared to see it - Certainly many people of interest spray for Pictons. I was interested to hear that you had <sup>already</sup> written <sup>about</sup> the bridge.

I agree with you that the price for G. M. D.'s color prints - his sketches is very high - do you think that this could permit some thin being mounted on blocks like they were <sup>shown</sup> ~~displayed~~ at the Congress, this of course would add greatly to their cost - Perhaps as you say you will fear of someone with less expensive color - printing facilities, (~~otherwise I would just pick a few out of the collection~~) and if you do I would certainly be interested - ~~I cannot~~  
~~quicker~~

\$200.00

Very sincerely

Luis W. S.
