My dearest Child.

I was so glad to hear you got off nicely, & this morning was radiant - & being a good day to begin a new life - I have been wondering what you will do - The reports lovely warm weather & autumn beauty at Mohawk - We had a very pleasant dinner at St James' last night, & came home early, I had breakfast late - Most of us went to church & had an interesting sermon from an unknown man - We have had various little wrapping curus as our present role

leaves - in drifts here &
there - We have just had
a few pictures into the
drawing room so that we
can live in it - G. W. does
not seem a bit - the mass
& much W. stays till tomorrow
noon - Ken & Terrace
are here now & we hope to
see you, or rather Edward
father & mother at supper

We all thought Edward's
speech very clever, & you
were much amused at
his coming to Montreal &
getting both a degree & a
wife!

I am sure you both
feel it - a relief to have all
the preparations & ceremonies
over, & with all my heart
I wish you a happy
& restful holiday.

I must - not go on - but all
love for both of you - & all my
heart goes with you
Mother.

No one seems to know your
address, I may have to await
the faithful "Dick" to get it
