

October 25th 1900

Dear Bernard

We were up on the mountain this afternoon and got a lot of lovely red leaves, We went out on the cars as far as the road that turns up where we get

then we turned off a path a good way up the road we went right along this path till we came to the

protestant semetery then we
walked right accross ~~to~~ to
the other side where we
got to a road that came
around at the Back of
Amigibans the we came
home by a path, are the
leaves very read there,
did you leave a little
wedding cake in a paper
pacage inside a Book, it
may be a hundred years
old for all I know. Aunt
Flo and the Baby will
be here on sunday I
expect the Baby will
~~be~~ ^{stay} here for a few days

father brought home such a funny thing
the other day it was for the museum
they came from New Zealand it was
a caterpillar with a long white fungus
that had begun to grow in its brain and
had gradually killed the looks like this

the one quite

common for
father had
5 of six of them

We will be glad to
see you home at Christmas
again every morning &
when I go down to breakfast

I wonder where you are

good bye with
love from Lois
