Spring - everything rising from

Monday
the dead etc

My - your last little
letter sounds sad & tired
but you will have had
such thrilling news from
us - I hope it cheered you.
& that you heard the
Sicilian whistle & co. think
of Lois looking hard at
you but unable to see
you because our eyes are
so short-sighted - The
Friend can see though
always =

The spring weather
makes one feel tired -
I am chaf - Evee feels so
limp. I can scarcely drag
her up in the morning
& she is very disgusted
with the beautiful grow-
ing rain we have had
the last two days - I was
not very well today & I
just lay & watched the
buds swelling & the
hyacinths are rising out of

the ground like a beautiful vision = The whole world of life is rising again from the dead - You might get Turkey to give you some fine afternoon & go & see your way in some warm corner & just rest between earth & sky - Take an old overcoat to lie on the ground is damp.

Ever & I are dining at the Fleet tonight - so I will see what the news is of Inst's going.

B. G. has been promoted to Chicautimi - to replace a man who died suddenly. I think it sounds like a good place - He stuck to his work - though he grew fell - so tired he did not know what to do & he has had a horrid cold too. I hope he is going to reap the reward -

Love dear & I wish I could take the depression for you "Only be strong & of a good courage" Richd Joshua I chas

the good courage chapter

I wrote to Mrs Carr
Harris - Today saying you
w^d go to her 3^d week¹ Jan
9th - & Clare hope to go to
Melis 14th or 15th & I want
you to have 3 days or so
to visit them & talk &
rest - & have Clare look
over your clothes -

Then on to one of the
loveliest - parts of Canada
by the Chaleur Bay =

Lovingly
Mother

Saturday not Sata day
the day sacred to the old
god Saturn - was at
first Saturn-day now
Saturday = just as
Friday was Frey or Freya
day - Thursday - Thurs
day - Thar was the god
with the hammer the
strong one - Sen - day
Maon - day - Waders - day -
nursed gods all -
