

Will where?

Tuesday?

Dear Will <sup>abt Sibus family</sup>  
<sub>+ possibly</sub>

1008

I imagine my for-

getting to thank you for  
the Standard; & I was  
so glad to see it; for there  
were several very interest-  
ing pictures. & G. M. was  
enjoyed it, so we are  
very grateful.

I hope you feel  
well again now. I do  
feel for you, with ups  
& downs - now feeling  
well & cheerful - & then  
miserable & troubled, & it  
is not your fault - either  
but a great affliction.  
Run all & take a smart  
walk or run - as soon as  
the cloud comes, that is  
one thing that you can  
do. but it needs courage.

& do read carefully, &  
think over what I wrote to  
you last night - it is true  
my son - Glad it over very  
right for a week - & if you  
only cry - Lord teach me  
Lord give me thy peace

It is prayer enough. God  
has chosen you, & sent his  
Son Jesus to teach & die for  
you - now you must  
be willing to learn - how  
to live for Him.

He is over all - & if  
it is nerves, or sin, or  
weakness, or fears, He is  
able to cure it all - & He  
will, if you continue to  
ask - I am asking too &  
Clare - & Mrs Thompson says  
she prays for you every  
day. she seems so interested  
in you ever since the once  
or twice you went there.

Did I tell you that  
Mrs Sims (Griffin Dawn) has a  
new baby, & has called it  
Aileen Dawson Sims!!!...  
I imagine - Clare has knitted it  
a frock, & I sent some clothes  
including a pair of your old  
long stockings which were put  
on a small child, & the heels  
shaved over the tops of his  
poor little hoofs - Last week  
neither the father or older brother  
had work - & the \$3.50 Daugie  
earned was all they had.

3.50 for father mother & 8 children<sup>2</sup>  
& you are paying \$14.50 = It  
seems as if it ought to be  
changed about does it not?

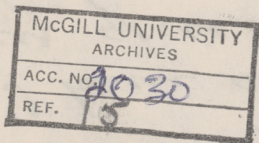

Still I expect one day you  
will be helping these  
poor people.

I think I will have  
you in Griffin town for a  
week to know what it  
is like. you might work  
with Benin, & pay your way  
& then try the farm.

I will hope to hear  
that you have begun your  
with Mr De B - & will send  
the books as soon as you let  
me know. you might begin  
with the stories at the end  
of the Hawthorne Book = .

Lovingly

Mother

I hope you read what  
Dr Starkey said about the  
Water Supply = in Witness

I have not answered  
your question about coming  
to town. I think dear as  
I am hoping soon to see you  
way - best - stay on at present  
& we will make a definite  
plan as soon as possible
