

Sunday - 1908

Dear Will -

Did you think
my question about
Buddha crazy? I in-
tended to put in the en-
closed:

I am going to deal
with Mr. Felt to meet
some interesting people &
will wait - till my re-
turn to tell you what
I see & hear.

Have come back!
Fancy - I said next to
Dr. Greufel. I wish I'd
have given you my plan
it was more pleasure
than if I had been crowned
the greatest King. For
he is a shining & a great

of the Great King - Truly
a man of God - & he spoke
so humbly of his work so
little about himself - but
so sure as he said - that
he could help the poor
mangled or diseased bodies
& make the poorest home
a happy one if he taught
them that Jesus Christ
was their Lord & Master

The same of any human
heart - that opens the door
& lets Him enter in -

Did B. G. send you
the book about the Ice
Man? - a beautiful story
I am so glad & thankful
for the Sabbath peace &
quiet. I sure you are
also - & this week I
shall be several hundred
miles nearer to you, my
son - Why don't you
write Laddie & his crew
from you all last week

& you used to write so often
No news from Lais either
this week - that makes two
lovely spots in my heart

God bless you both -
far from me - but never
far from Him, never
forgotten by Him.

Your most loving
Mother
