

Well at home

April 1919

University of
Michigan
[week of Apr 30 E 11]

Dear Lou -

Your letter of
Apr. received & you seem
to have been doing a lot
of thinking, which is good
if it does not take your
mind off the all-important
present.

Mr Tuckey has written
to me & says you are working
much better, & growing
more manly & do not need
so much overlooking -
now to work faithfully &
carefully on your own ac-
count is a very great
matter - As the Bible says:
Be not weary of well doing.
I like to do well, but it is
not easy to keep on & on at it
but it means overcoming
& glad & thankful I am
that you are learning that
you have not to beat out a
new track either - Jesus
Christ is the way - & your
father, & grandfather & grand
g.f. - all tread it steadily
The sketch of father & g.f.

Prof. Cay is in the proceedings of the Royal Society & I only have one copy. I have sent it to Clara to send on to Ruth, she is to forward to Con - he to B. & you will get it in a week or two, & please carefully return to me & I will put it with the other Records

This week has been very busy with College functions - I hope you have read about them in the papers - particularly the Convocation you will see many familiar names in Saturday's issues - Harold F. Kobbie Fleet - & others graduating - notice Peter Heng in Laos - the first Chinese graduate of Mc Gill - a great favorite, he is going back to China to enter the diplomatic service - 6 other Chinese want to come but our barbarous laws prevent. I invited Dean

Wallow to come here & have²
tea with Dr Thompson &
talk over the Chinese student
question - I he did & made
today a strong speech
about them - Perhaps
something will be done.
Mr Hersey has given quite
a run to the College also
Dr Douglas - Mr Childs
of Boston has been here.
He has been very kind to
con - far father's sake - he
came to call on me - & I
saw him today for a
few minutes - He is such
a handsome, pleasant
man -

I think carefully over
all you say as to tutors
etc - & find out - all I
can, & pray to have clear
eyes to see the way, but
often one does not see it
till the time comes -

you are very well when
you are till middle or
end of June - & then most
of the spring work will
be over - I wish Mr Tucky

was in the 4th Concession
& then you c'd stay on I
am just as anxious as
you to be settled for I can
make no plan for my-
self till I know about
you - Meanwhile walk
by that wonderful sea
as much as you can.
Oh how I w'd like to sniff
the fine sea air, & see the
sea & sky twin brother &
sister, as grave & gay, they
frown & smile.

I am surprised that
the seeds have not arrived
shall telephone if a day or
two does not bring them.
It has been snowing here
since 6. a. m. - I w'd have
two or 3 good inches of
whiteness

Lair & Leven Jean &
George Kohl, have gone down
to the Glass Machie tonight

The Club has been having
harrier races lately, they
ran one last night with
a club connected with
the Cathedral, rich boys, &
Griffin town were a Great

The shop they have rented³
they will get tomorrow, &
then scrub & paint & put
in order - Mr Fosbery
has given them a horizon-
tal pole & they have other
things - Aunt F has sent
down a small organ
they had - I am donating
a crutch board that
I had & a side of thing, I soon -

Lais Cover was not
chosen they said it was
the best - but we cost too
much to reproduce - I be-
lieve there is some intention
of issuing it as a paper -
but I am not sure yet -

The paper comes out in
May & you certainly will
have a copy - Aunt has
written a short account of
the Club on Mrs Cox's page
& you will find many
remarks in it by people
you know -

Much love dear
Aunt from
Mother -
