Glen Sutton

May 1 1869

Dearest Will,

Home again,

the beautiful Glen Sutton is a thing of the past. I recd a pile of letters were waiting for us, & so many business affairs - As usual the I.L.R. is uncertain about the summer trains - & when they will leave - I already at the drawing rooms have been asked for ours & ours.

The leaves here are now fully out - & summer with us & apple blossoms in bloom. Such a lot of plaquing I saw out - Sutton & such pretty farms, the plaques were so large & went so deep. I think they must be different from the Irish ones - but perhaps I did not look enough.

I sent you a World and today with some good articles in it, which I hope you will find time to read.

Muriel F. is going to Boston

on Friday, to stay with a
friend! & of course see Cor-
there will be great rejoicing
Ted & Ruth are to arrive
here Monday, but I don't
know for how long he is
coming for business - G. M. &
Clare are expected Thursday
Civil Shepherd to be married
Saturday week - Stanley
Christine was married
today. He has apartments on
the Grosvenor, as has Evelyn
Russell - you remember the
apartment - is corner Sher-
brooke & Gay.

I have not seen Mrs. Ted
yet - so have had no news
of you - & Helen has forgotten
to call for your watch but
it will be replaced & sent
down with Clare - I have
been engaging servants for
G. M. & seeing to insurance
& oh we have had flood
of water in the new room
the slates on the roof smashed
by clearing snow. The apartment
pierced - & now I have had
to get it repaired & I don't
know what it will cost.
& both Hall & dining room

Have the wall completely
spoiled. I did hope I could es-
cape that expense this year -
We have all tried so hard to
do without things - but now
we must be very careful
this summer.

Lais seems to have
enjoyed her voyage only a
little sick one morning &
the french pilot was just
coming on board up a
rope ladder. I am sure
hear about her french
doings.

Much love & "Watch
& Pray" - I am going to
send you Grimpeli book
soon -

Mother
