

Look up

Thursday

Dearest Will,

Two letters

received from you yesterday - I feel awfully about your nice white teeth but you must have been very miserable with it to be willing for such a horrible lurch:

I was surprised to hear that you were back at the Harris you do not explain!! How came that about. Are you working? or only visiting? I hope to hear from Mrs Harris when I get to Tunis on Saturday

I explained to you how important it was for you to put through the

summers if you could - but
I will do my best to help
you.

as to last-winter.

You were in poor health
& growing fast - I left was
too much for you, you
were not to blame for
that, you were unhappy
& unfit - I no man could be
in a worse plight - espe-
cially as you had last-
night - of God - Now you
can always look up
where there is light & no
darkness - & rest in the
presence of our Master
who knows all

Many a time I have
seen nothing but - mists &
darkness about, no way
to walk - & then I drop it
all, & remember that there
is plenty light - above -

I will be busy to-
day packing, & ordering the
house
