Dearest Clare,

Very pleased that you are comfortably transferred to Nocantico, & shall imagine you using roses as aspirin pills, or jumping poles -

Mrs. Henshaw telephoned to tell me how well you were looking, & that g.m. had improved greatly in the three weeks. Now if she drinks milk, she may put on a few pounds, to resist the rigors of a *Metis aestivalis* - nearly all the nerve diseases come on when there is a deficiency of fat in the system & when that can be remedied, the nerve trouble is less apt to recur.

We have been very gay last week - Ruth out nearly every night & twice dancing - but she really seems little the wiser for it - The graduating men were on the whole a fine looking lot of fellows - 'Lory John', Mr. Lambert & one or two others making a grand show - you have no idea how nicely they looked dancing

in gown & hood. The student
dressed, is much more picturesque
than in a tail coat.

Talbot Wapman gave a fine
Valedictory, & certainly has chosen
a suitable career. People expect
that he is not the Lewis, who
has the Estate, & I believe is rather
a soft & unadventurous youth.
They all go to Monticello this sum-
mer, & are eager to improve & reno-
vate it. Mrs Sheffield is back
in town for a few days.

We had Mr Patton at tea to-
night, he & Ruth have gone out
to church, he certainly seems to
be a fellow of high ideals - his
a nephew of Dr Saunders of the
Experimental farm.

I enclose a letter from Mrs
Kussel which tells all I have
heard about Claude Du Li's death.

Hope to hear from B.S. by Tuesday
that seems to be mail day - Ed
