Dearest Clara

Wrote how I  
 looking very well - uncle W.  
 here for a day he really looks  
 quite well & but for a little  
 stiffness, all right. Dr Martin  
 overhauled him & gave him  
 some advice, cheered him  
 up I think too - uncle W. had  
 not lost his sleep during his  
 attack, & the stiffness & being  
 obliged to lie still were the  
 worst - I think 9. m. may  
 feel quite easy about him.

I cannot decide for you  
 but think the shorter time  
 9. m. is her the better, only  
 she must get - Dr H. Lockard to  
 see her thoroughly & give  
 her advice for the summer  
 he will be able to judge how she  
 is relatively to last year?  
 Heard nothing of Minnie &  
 am surprised that he would

I thought you  
 might be interested  
 in W. Conway on  
 the board of the  
 year of 1890 before  
 the day of Nov 2  
 was - October  
 much the same

if Elizabeth has come I sh<sup>d</sup>  
suppose she w<sup>d</sup> have sent  
word when she enjoyed her  
passage, & if she left it late  
she w<sup>d</sup> have difficulty -  
Minnie must be here till  
Elizabeth appears, in any case

I wish you had gone to  
Woodsstock there were nice  
people, you seem to have a  
queer assortment where  
you are, I sh<sup>d</sup> recommend  
the placid lady not to worry  
about the secret things which  
God has reserved to his own  
wisdom but to attend to those  
he has revealed to us, & which  
are our inheritance. Don't

of course we are made  
lucky but Keeth is reeling  
up the outside things, & I  
am doing the inside - It is  
full of the luxuries of a  
pretty country house in  
modern attire - & w<sup>d</sup> like to  
improve ours - but as usual  
money is not - but Mother's  
careful is dreadful in colour

a kind of temporary pleasure - & absolutely wrong  
and not things can live in it forever. We  
just that since the rope may be unfastened  
the thought - or perhaps to go below, I see that  
The little par H.S.'s room & the plants & such  
well was arranged every man got 30 or 35 cts  
in hours -

My present week stays till your day  
night - 1000 give us as the day of week  
None not turn for news -

Hope S. W. is given  
again Mother
