

Madie Wood Farmer

July 12th 1934

father at farm both  
give a dinner

Thank you for a

to better which  
is all a bit  
only  
last =  
Love to grand-  
mother & grand-  
father  
Love  
Mother  
1211  
Acc

so short as so quiet, & that was

only two weeks pulled wrong

in it - Attie & Trinity. I think

the last was probably only a week

the little birds must be very

quietly & interesting - there are many

birds about - but which are

new to me & the Whys-How-Whos

are very loud & uninteresting in their

cry, or not - perhaps they keep on

calling starting the whole up &

though whether the story will be

enjoy the best - or work up to con-

clude in it - I don't know for

sure - I don't know for sure -

I hope you are having a great many

questions for you can leave a

great deal in that way - I know

he is always glad to answer  
any little questions - that are  
your reading - I will cover  
several books especially for you &  
I will like you to help reading as  
something new if you don't want a  
great deal at a time - I think

they I cannot see from the garden -  
as I think I had come & give to the  
for I can only manage a few - I am afraid  
at - I see not them - I don't go a little way  
along the road & look enough to see them  
too, it does not take long either there are  
only two to eat - there - for I never eat them  
anyway - Father found a splendid place for  
such a beautiful hill, & we got a lot - but  
though we were only away from the house  
about 1/2 of an hour, we saw nearly all the  
very striking & beautiful hills for a distance  
even coming on, the hills had a distance for  
measuring we had a regular gate & heavy  
everything came quite dry again, that afternoon  
I had a short drive in the little gig, in  
the afternoon some from the P.O.

Some seems him was one - what are  
you doing at - lessons & what are  
you reading then - do you read  
papers as Clara, I thought that would  
be nice, I you wd get on faster -  
tell me how the lessons are  
arranged, I do not know at all

I was much shocked to read  
of Mr Burnett's death - Poor Mrs  
Burnett has had one trouble  
after another for several years  
past, I tho't that - I all

you have not - told me either  
how your P.O. succeeds - Whether  
Dexter is very friendly now that  
Rachel is gone - I know have  
very persistent she is when she  
wants anything, & you must try  
to be on your guard not to allow  
her to persuade you into doing  
anything, that is not quite right  
& right - also I think you might  
help her to be a little more kind  
& thoughtful for her little brother  
I did not think she was every  
good to them, I you are accustomed  
to be nice to yours.

Baby must - he must have  
quite given up his bottle now  
& that he like the letter, I sent  
him? I cd not make feel to his

bladders for I had not enough water, I do not  
know like it here - but I hope they will be  
useful as they are: Does Edward ever let him  
wear the little blue frocks, or does he always  
wear white: Can he say any more words  
now? I I hope Conrad is regular in bringing  
up his salt-water, so that he may grow  
strong, & well - We went for a drive the  
other day, round Raven Hill - all the drive  
go round some hill or mountain - It was  
a very pretty drive - I we saw a walnut tree  
& when we got home - one of the boys got us  
some walnuts such as grow on the tree, they  
were very like hickory nuts, & about the same  
size, but the inside was just like a walnut  
& very good indeed - I did not know we  
had such a tree in this country, it was not  
the blk. walnut.

We have such a pretty bunch of flowers  
on the table, wild spiraea - pink & pale pink &  
white - with ferns - & another of pink sweet pea
