Savannah Lake

Oct 21st / 91

Just a nice letter
about 1/2 r people
at Savannah

I was so glad to get
your dear loving letter, & also
pleased to hear that you like
what we are doing, the great-look
& to the great-look of them, as
they & they as much, & as they, as
you can with the little ones
both for your own sake. & then
I'm sure in the morning by the
little ones, with no doubt
go out & in & your sweet work
the most of your play days -
'reptible' you have not yet
had a proper report, as you
went - late & hours here in two
classes. We have got the history
one in a very nice house on
church st. the best about here,
we have a nice gallery that you
like this  reached the house so
we can find shade, as you, at an
hour, & there is a kind of glass
larch for what I think is a
warden & clouds
much more pleasant
if they are gently
done -
Lovingly
Mother

Eric & I are both
using the spray
cages -

The evening corner - Eric did not feel well enough
to go out in the boat-lookery. I prefer to see very
admirable this morning. I as the well people
look hope as much possible to be out of class as
the park with me also here, I don't think they will
ever be sick - I hope some of you will stay in
class a minute when you can be out, I that
to the way to keep well - & remembering the high
water on the water, Eric is in the house
see clear the shore the more for me look in -
truly nice here that it is weather of class of -
I was thinking it to take history - school
We have a few things to do - I think
just - speak to us, & what do you think
the school with us in 12 in for then
the summer, got - 50 a week the had to
the room after the children want that
also did not go through the exercises - we
not like to have had such a chance - we
So try & be very good, & obedient to
over a hundred to him & he has no music to
over a hundred to him & he has no music to
over a hundred to him & he has no music to
over a hundred to him & he has no music to

We are mostly opposed to the Unit
Presbyterian Church, As Eric sat
on the gallery today he co' hear the
singing, & drafts of the sermon,
the hull is rather large for the
church, & the men stand in the
front porch, & pulled the rope, & the
whole church celebrated & the boys
shook - Eric says the three church
sang their bells ten about, 3
strokes from the Presbyterian, then
three from the M. C. & three from
the English, that sounds a funny
Glean does it not?

also there is a remarkable
man they call Jack Thinning -
sweep - he goes about looking
black all over, face & all, with
two large red rascles, one on his
breast, & one on his peaked hat -
& he can be seen standing on
on the tops of chimneys, pulling
up & down sweeping arrays -
mints, & singing at the top of his
voice - We should we' delight in
him - We can see a fine
water from here that they call
Flower Lake but it is staly only
a part of the River clearness of
of Tombarrow is as fine & warm
as Talcen I intend to take
Eric out - a boat-ride "they
have delightful chair boats in
the boats - & they tell me the

river is very pretty a mile or two up -

There is a gentleman living near here with four
jolly little boys & one little girl, his wife is ill, & he
has come here & taken a house to stay all winter in
the hope of her getting better - The two little girls
in this house are nice little things 10 & 12 Grace &
Kelen - they play so prettily with their dolls & put
them all sweetly away - they have 4 or 5 dolls, all
about the size of "Sweetie" & they even play with
them in bed in the mornings if it is not quite time
to get up - they go to school & are there both morning
afternoons. They have been there four years, they
came because their father was sick, he is better now
but does not dare to go back to N. Y. - & has had to
give up his business - & so they take boarders, &
live here - I wish I co' live here too - but you see
there is no house here big enough to hold all my
children & to let me take boarders too - I don't know
what we shall do - but it would be very nice to be able
to come home again - if I co' be sure that Eric would
be well cared for - Sunday

Another lovely warm day, so hot we had to move out of
