

W. S. of Walk Keeping?

appearance
 you asked me sometime ago about
 Mrs M.'s property - as you know the lot
 about her house across to the apple house
 & the lacuer lot to Ben's - belong to the
 Frothingham Estate - The middle lot
 never sold, but was not to be sold till
 junior's connected with the Hall Estate
 grew up - this apparently has been accom-
 plished & the middle lot was sold to
 son of old Walker the hardware man on
 St. James St. - They say he is willing to divide
 it in lots, in a card with views of the
 society for City Improvement - & I hear that
 our Muller has made some proposition
 to the city as to possible roads implying
 the discussion of Bidlewood - Mrs M.
 was very upset about the talk of change
 but that was months ago & now she
 goes on as before -

Evening 30 boys are expected tonight
 for the annual party - It is one good
 thing we get out of the big house
 Today Cecil & his habits - came in for
 a monument & brought me an engraving
 of Ruth by James Landis - for which
 G. M. paid as a model - old Mrs. Doherty
 had it - & some one told her its history
 & she has apparently taken it out of its
 frame & sent it over - was it not heavy
 It is a pretty picture & though not heavy
 likeness, certainly suggests G. M. espe-
 cially about eyes & brows & the dark
 falling hair - The original was es-
 sentially last year at the White City I
 forget in whose possession it was
 bold to recall the by gone days -

G. M. is looking wonderfully well
& walks out - beach day with a brisk
& vigorous step & really enjoys, we
have no more trouble in inducing
her to go -

Dear Mrs Ames has just had a
cable saying Mr A. & at Harold said
very ill with Typhoid - he was on
his way home from India, she is
going off as soon as possible with
mamma mainly on her account, as
she is far from strong &
as the main action is about to be
qui - B.G. & Anne have gone down
to bring up the boys - & no doubt
are shouting up the streets at this
present moment -

all love & thanks to you & Ted
& every blessing on your home
Don't play hockey - not on any persuasion
I will try & see Evelyn soon & tell
you how she is - Isabel & Jack are
far N. was - & have you heard of
Meywite Harris engagement - than
between 30 & 40 - rich American - than
Concord - devoted himself to Messers
work in winter - Europe in summer
met in Murray by - where he found
her as a very child & last summer
golped with her, to this serious end
mamma & aunts much pleased
Good bye
Mother
