

June 11th / 98

Dear Child,

We continue as before
the blessed Huffy well & bright
rather too restless & energetic
as he will not be able to put his
past season flat for at least
another week. He was in the
garden with me yesterday &
went with Carpy & me for a
drive today. The weather
cooler here. But I can not
try to write much. Have at-
least got a better slice from
Father which I may enclose
your friend uses very thick
paper. I don't like to open your
letters but they are so weighty
but reports her arithmetic paper
"lovely" so she no doubt did well.
I have just received
your letter, & am rejoiced to
think of you safely at the sea.
I trust your eye is better, if
not Dr H. will easily release her
Mr Turkey ought to have at least
3 good marks for neglecting to bring

The luggage - It is as wrong of
him if he wd not have ventured
to do it - had you not been
alone -

The cable - message -

"Safely arrived, please cut no more
pains all well here" It was
addressed to people because
this is the only cable address here
There will probably be another
about the wedding - on the 16th
or the 23rd - the Guard-groom
name chase was "all over -"

very successful, or some such
If I knew the day "for sure"
I wd send congratulations

much love for the dear
children Lais, Eva & Bernare
I will try & write them all
letters this time or next -

I thank Lais for her -
copy has sent me a charming
little book called A Roman
Carol - that you wd all like

From
Mother

Try & have the eggs & arrange the washing
I wd like you to ask Mad. Mrs to keep
two lots of butter for me at the end of the
