1837

Dear Sir,

I herewith enclose
you the sketch as promised.
I reduced it carefully with
the pantograph, ^{from x to x} but the
cape looks so different - that
I hardly think it can be
correct, yet I got it from
a late survey giving the dist: &
bearing between C. D'Or & Cape
Chicogne^{a. l.}. The form and
position of Apple R. with refer-
-ence to Greville Bay is correct
according to a survey
giving the dist: across.

over

By refering to Wrightmans
published Survey from H^c:
to Windsor you will perceive
that there is no Lake ^{on the line} between
Hants & H^c: C^os between the Pockwock &
Grand Lakes. Also that the
Lake farther on which your map
makes the head of Sackville R.
Runs into the meander R. —

I am in haste

Your Ob^d. S^r.
