

Heathcote July 15th 1846.

My dear W.

I thank you for late letter,
papers & plan or map - I have not
read yet & am glad to see
that you are likely to get the
rewards you deserve.

The path of Science is smoother
than that of politics. See how I
am likely to be torn to pieces here
for doing - what all would do & the
other persons say - is a great problem
good. I have the record - of a
calm & peaceful mind - the manner
that I have done my duty. My
time will come by & by.

Wish you to do me a favour. I am

W. S. W. Garrison

sent of the Red wood for England -
may they the favor of your
letter one of the small shops
around to Belchem Minnas &
meeting in at the annual beds at
Antoni, Delant, Maria & lately
to be marked by the Red wood. It
is to show you it may be made
broader in Belchem - if not now.
If you can send me two shops it
will oblige - around but yours
name to show - it may end back
to you yet.

Let me hear if you can do it
oblige

Yours faithfully
J. W. Long.

To J. Dawson by

If I were in the market of the paper
House I must read your letter - and
you ready to send proofs?

Regards to your good lady.
