

Letter
C Syll
1847

My dear Sir

I ought before to
have acknowledged the receipt
of your paper. which the Pres-
ident of the Geological Socy
Mr Horner has promised to
read & for a time for its being
read in a few days. I
have been so hurried by my
printer (of my 7th Edⁿ of
Principles) that I have
not had time to do more
than examine with pleasure

your excellent map &
section of some cliffs
which I saw - I have
not yet had time to
read critically & see
if you have any evidence
from organic remains
of the age of the gneiss
and sandst. & whether
it be entitled to the
name of The New -

Of the by & by. We
must have you here &
I shall be glad to
introduce you to the
geologists. I will
write in a week
or less. I am going
for 5 days into the
county
yours truly
Charles
