

My dear Sir

The President of the
Geol. Socy has fixed on ^{Wed.} March
24th for the reading of your
paper & I am to read on
the same evening a paper on
the new coal-field (oolite
or trias in age) of the Chester
field Co. near Richmond, Vir-
ginia. As the age of the coal-
bearing sandst. of Va will bring on
a discussion on that of other

John Dyer
1847

so called "new and dangerous"
in Connecticut & other States
your paper it is thought very
with great advantage & can
stand at the same time

And you will come on
at all events help us in

An illustration. The good
body will pay the carriage

of them but I hope you

will bring them yourself
certainly

Chadwell

I have told Mr. Mansfield this
morning & Mr. Archibald last

week that you are employing
your time in Edinburgh most
advantageously with a view
to future mineral surveys

11 Harley St.

March 1.

1847

Please to observe my
new address

11. Harley Street
