

Lafayette Square 17th
1849.

My Dear W.

I send you the copy
of a map I got while
in Canada in June got
pretty nearly the course of
the line - the plans will
be laid on the table of
the House on Friday & I will
then endeavor to get a copy
of the for you. Keep this
secretly imprudent & return it
to me. What must be set
is a short report & sketch of

W. J. W. Swann

the focal length near ^{the same}
- its extent & quality - that we
may see at what cost it can
be laid down in Halifax - at
the low rates I am ^{transported}
now in by land - $\frac{1}{4}$ + $\frac{1}{2}$ per
ton per mile. I would like
to have your reply if possible
by the end of the week:

Regards to your wife - the
young lad is blessing ^{God}
to meet your first winter.
In haste

Your truly
J. W. Jones
