Dear Sir,

I have lately received the enclosed
Order from Dr Woodell (along with another
remittance) which as you are in Gloucester
I herewith enclose enclosed to you. It is
as you will understand a part of the
Foreign Mission fund which you will
please to draw and deposit as you see
fit. I received your last in answer to me
just before your departure; which was
very satisfactory only in one point you
quite misapprehended me. I did not
to add "it" to the end of the title of the Register
but to prefix the Article "The" which in
the first No. is wanting, but which I thought
ought to be there. I hope that your lecture
will be well received in Gloucester and that
The Register will not suffer by your short
absence from the Editorial chair.

I remain Dear Sir

Yours &c
