

~~Copy to Mr. W. H. ...~~
~~Feb 27 1855~~
Peter Feb 27/55

Dear Sir;

We enclose
a copy of our map
of North Dakota, col.

oured geologically, of
which we wish 1000
copies for a work

Maps Oliver & Boyd
are printing for us.

We wish a transfer on
stone from the plate, and
the boundaries of formations,
marks for limestone, coal, &c.

Copy & Engraving
Feb. 1835

to be added on the same
1000 copies printed on
suitable paper, which
Messrs O & Boyd will
furnish, and the whole
coloured precisely as in
the sample. Messrs O & B
will inform you how soon
they must be ready.

The hills shaded in
New Brunswick, may be cut in
the plate, as they will be useful
in future editions of the geo-
graphical map.

We trust to you to have
the work done as cheaply
as possible, and with perfect
accuracy. If you learn from
O & B that there will be time, you
may send a proof just

Dawson & Co.
