

Dear Sir

I have just read with
very great pleasure your excellent work,
entitled: Acadian geology, and I thank you
for the notice you have so kindly taken of my
Geological map of the U. S. and ¹⁸⁴⁵ this memoir
published ^{at} Boston was very incomplete;
since then my travels in the Rocky mountains ^{and}
California have enabled me to enlarge its
extent and to correct many errors. I am
now publishing an edition in the Quarterly
Journal of the Geological Society of France,
in French ^{and} also one in German, in a scientific
periodical of Gotha.

I shall have copies for myself and
shall be most happy to send you one, as
well as our friend Mr. Richard Brown,

if he is still at North-Sydney.

I can send these to Mr. C. Rupert Jones, the assistant secretary of the Geological Society of London if convenient to you, or to Professor Charles Girard of the Smithsonian Institution at Washington.

If you will write me word which way you prefer. I will conform to it. If you have occasion to write to Mr. Richard Brown be so kind as to present my respects and say that you will have a copy of my map for him.

I have not forgotten your kind reception when I was at Picton in 1849 and I beg you to believe me yours

very truly

Jules Marcou

Salins le 14 aout 1855.

address: Jules Marcou à Salins (Jura)
