Dec. 1/65

My Dear Sir,

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the specimens of Micromes which you have the goodness to send me. I have the honor to inform you that the larger of the two specimens which you have the goodness to send me is a very fine specimen of Micromes and is well adapted for the purpose of the Microscopium (Ref. 1000) which you have the goodness to send me. The smaller of the two specimens which you have the goodness to send me is a very fine specimen of Micromes and is well adapted for the purpose of the Microscopium (Ref. 1000) which you have the goodness to send me.

I have the honor to inform you that the larger of the two specimens which you have the goodness to send me is a very fine specimen of Micromes and is well adapted for the purpose of the Microscopium (Ref. 1000) which you have the goodness to send me.

I have the honor to inform you that the smaller of the two specimens which you have the goodness to send me is a very fine specimen of Micromes and is well adapted for the purpose of the Microscopium (Ref. 1000) which you have the goodness to send me.

about the young of the
large species.

2 Two specimens of Amorpha
in summer & winter
deposited in the

in the A. Novboracensis
and the Amorpha affixed. Prob.

with Amorpha Amorpha
of summer. (Map Report)

3rd Report that of some
that take of left in

Amorpha every specimen
that of our most
Amorpha Amorpha (A.)

Reinsglanica, a water
treated annual than the
Amorpha sent, and that
more different. inserted
form of the Amorpha
shall try to get some
specimen.

4 Read the Amorpha
Amorpha from the

that the Amorpha of same
specimens from Nov

Scotch quite identical
but do not send it.

5 Amorpha Amorpha
name also the Amorpha

known species, but I have
not a specimen. ^(I cannot give) I regret
that I have so few
specimens of both known
and new species of the
matter of time I shall
not have parted with
the specimens I left in
Boston, one of which
was preserved in spirits
I therefore like to take
more useful specimens
I am
opening a course of
lectures here, it will

NOV. 23. 1855.

B22

To the page of paper
 I have the 3 pieces
 returned of last year
 any, what about it
 do not forget in the
 course of the winter
 to get anything further
 after is to assist me
 and I hope to be in
 the next spring, when
 you perhaps procure
 some specimens.
 It is important to
 have a good quantity
 of specimens of the
 plants of America

A. Pennsylvanicus, ~~of~~ ~~the~~ ~~mountain~~
I am permitted a few
and think you ~~will~~
have no hesitation in
saying it is ~~habitual~~
N. York, though I should
~~not~~ find specimens
to face you publish the
articles of which I am
send specimens (if dis-
tinct, which I think they
is not so common as
the Pennsylvanic in N.Y.,
at least I have seen
very few of them.

The small ~~varieties~~
also the most ~~common~~
in N.Y. I have not seen
as yet any ~~abstract~~ of
my paper. ~~but~~ ~~that~~ ~~it~~ ~~will~~ ~~give~~
you some ~~particulars~~ of
their ~~habits~~. I give the
paper ~~to~~ ~~you~~ ~~in~~ ~~the~~ ~~enc.~~
I have ~~been~~ ~~very~~ ~~pleas-~~
ed to ~~hear~~ ~~of~~ ~~the~~ ~~Phil.~~
and I ~~hope~~ ~~to~~ ~~see~~ ~~you~~ ~~very~~ ~~soon~~
and I ~~shall~~ ~~be~~ ~~glad~~ ~~to~~ ~~hear~~ ~~of~~ ~~you~~ ~~very~~ ~~soon~~
I ~~am~~ ~~very~~ ~~truly~~ ~~your~~ ~~friend~~
Wm. C. Cress

shall try to send with
my parcel a few Canadian
publications to him
I should not see
the paper in fact, I
only know nothing
of my Cicero here
the copy of Sicut
Please give me
and I shall gladly give
you any further information
I am
much interested in the
state of them to the
and excuse this hurried note
Yours very truly
W. Dawson
