

Engraving Lithographic Copperplate & Letterpress Printing Estab.^t
3, St James Square, Edinburgh 6th April 1858

Messrs Dawson & Son

Dear Sirs

I beg leave
to render my account which I hope you will
find to be correct and to request that you
will as soon as convenient put it in a
Train for being settled. I am aware
that this will require consideration in
consequence of the large plate of the Map
of having been stolen from
my premises and as to which you have
never written me which you said you
would do. There was also some confu-
-sion about the transmission of the last
lot of the small Maps which had been
allowed

allowed to lay over in a Warehouse at
Liverpool, neglected and which
were printed twice in the emergency
no fault of mine, but you will
please take the amount with all its
errors into your kind Considerations
& oblige

Dear Sir

Yours truly

W. A. Lewis
