My dear Prof Dawson

Have you in Montreal  
 anywhere a specimen of *Spermophilus richardsonii* from the  
 Saskatchewan. We have none,  
 and want to compare with  
 allied Rocky Mt. specimens  
 which may be distinct. If you  
 can see that I got a specimen  
 for a few months, I will return  
 with compound interest.

Truly yours

J. J. Baird

Prof Dawson

Montreal

but  
 not too  
 as to  
 better  
 and more  
 less of  
 as before

Yours
