J. M. Dawson
Montreal,
Dec. 6, 1862

The Mill Col,
Montreal
Dec 6/82

My dear Sir,

Your note of
November 29th reminds
me of an omission in my
last letter; and which
it may be as well to ~~correct~~^{supply}
now rather than in the
proof. It is that I should
have stated that the
drawing of G. leptopus Browniana
is taken from a specimen in
the collection of Prof Rogers of
Boston, and which was rather
more perfect than any
obtained by me —

I quite omitted to add
this note, which is due
to Prof Rogers who kindly lent
me the specimen.

Rev C. H. Woodhouse }
22

Yours truly
W. Dawson
